

Keysight Rental Partner Software Access Program

Rent the software you need, when you need it

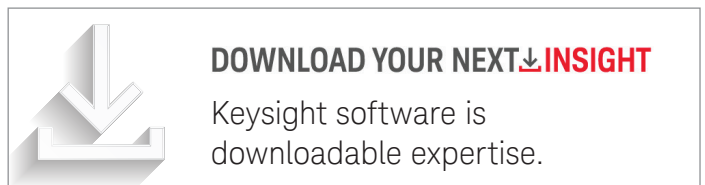

The Keysight rental partner software access program was developed jointly between Keysight and its rental partners to make it easier for you to get the exact software configuration you need on your hardware rental.

The software access program offers >1300 software applications covering industries such as cellular, wireless, aerospace, defense, high speed digital, automotive, and more.

Eligible Product Families

- 89600 VSA vector signal analysis software
- Arbitrary waveform generator software
- Audio analyzer software
- BER test software
- Impedance analyzer software
- Logic analyzer software
- Network analyzer software
- Network analyzer software (Handheld)
- Optical measurement software
- Oscilloscope software
- Power analyzer software
- Power supply software
- Protocol analyzer software
- Signal source analyzer software
- Signal Studio signal creation software
- Waveform creator software
- Wireless test set software for UXM
- Wireless test set software, X-Series measurement apps for EXM and EXF
- X-Series measurement applications for modular
- X-Series measurement applications for MXE EMI
- X-Series signal analyzer measurement applications

The following pages contain a detailed list of the eligible software.

The software access program offers > 1300 software applications covering industries such as cellular, wireless, aerospace, defense, high speed digital, automotive, and more.

Get up and running quickly	Rental partners can access licenses immediately to configure your rental
Control costs	Rented instrument contains only, and exactly, the software you need
Benefit from the most up-to-date technology	Software loaded onto instruments is always the latest version

Product	Description	Product Family
89601B-200	Basic vector signal analysis and hardware connectivity, transportable license	89600 VSA software
89601B-AYA	Vector modulation analysis, transportable license	89600 VSA software
89601B-B7R	WLAN 802.11a/b/g/p modulation analysis, transportable license	89600 VSA software
89601B-B7T	CDMA2000 modulation analysis, transportable license	89600 VSA software
89601B-B7U	W-CDMA/HSPA+ modulation analysis, transportable license	89600 VSA software
89601B-B7W	1x-EVDO modulation analysis, transportable license	89600 VSA software
89601B-B7X	TD-SCDMA/HSPA modulation analysis, transportable license	89600 VSA software
89601B-B7Y	WiMAX 802.16 modulation analysis, transportable license	89600 VSA software
89601B-B7Z	WLAN 802.11n modulation analysis, transportable license	89600 VSA software
89601B-BHA	TEDS modulation analysis, transportable license	89600 VSA software
89601B-BHC	RFID modulation analysis, transportable license	89600 VSA software
89601B-BHD	LTE FDD modulation analysis, transportable license	89600 VSA software
89601B-BHE	LTE TDD modulation analysis, transportable license	89600 VSA software
89601B-BHF	Custom OFDM modulation analysis, transportable license	89600 VSA software
89601B-BHG	LTE-Advanced FDD modulation analysis, transportable license	89600 VSA software
89601B-BHH	LTE-Advanced TDD modulation analysis, transportable license	89600 VSA software
89601B-BHJ	WLAN 802.11ac modulation analysis, transportable license	89600 VSA software
89601B-BHK	Custom IQ modulation analysis, transportable license	89600 VSA software
89601B-BHL	Channel quality measurements, transportable license	89600 VSA software
89601B-BHM	DOCSIS 3.1 modulation analysis, transportable license	89600 VSA software
89601B-BHP	FMCW radar analysis, transportable license	89600 VSA software
89601B-BHQ	Pulse analysis, transportable license	89600 VSA software
89601B-SSA	Spectrum analysis, transportable license	89600 VSA software
89620B-002	LTE wireless link analysis, transportable license	89600 VSA software
89620B-003	LTE-Advanced wireless link analysis, transportable license	89600 VSA software
89620B-001	Basic wireless link analysis, transportable license	89600 WLA software
81195A-OSP	Optical Signal Properties, transportable, perpetual License	Arbitrary waveform generator software
81195A-RSP	Real-time Signal Processing, transportable, perpetual License	Arbitrary waveform generator software
81199A-001	Wideband Waveform Creator, Transportable, Perpetual License	Arbitrary waveform generator software
81199A-002	Wideband Waveform Analyzer (89601B VSA Software not included but required), Transportable, Perpetual License	Arbitrary waveform generator software
81199A-DEV	Development License, Transportable, Perpetual License	Arbitrary waveform generator software
81199A-DFP	Access for unencrypted Waveform, Transportable, Perpetual License	Arbitrary waveform generator software
81199A-IAD	Library for IEEE 802.11ad, Transportable, Perpetual License	Arbitrary waveform generator software
81199A-WGA	Library for WiGi - Software License, Transportable, Perpetual License	Arbitrary waveform generator software
81199A-WHD	Library for Wireless HD, Transportable, Perpetual License	Arbitrary waveform generator software
N3432A	Software, POLQA measurement, fixed perpetual license	Audio analyzer software
N3433A	Software, POLQA + PESQ measurement, fixed perpetual license	Audio analyzer software
N3434A	Software, AES3/ SPDIF and DSI digital audio, fixed perpetual license	Audio analyzer software
M8070A-1TP	DUT Control Interface, Transportable, Perpetual License	BER test software
M8085A-CT1	MIPI C-PHY Editor for M819xA AWG, transportable, perpetual License	BER test software
M8085A-CTA	MIPI C-PHY Calibration, Conformance and Characterization Procedures for M819xA AWG, Transportable, Perpetual License	BER test software
M8085A-DT1	MIPI D-PHY Editor for M819xA AWG, transportable, perpetual License	BER test software
M8085A-DTA	MIPI D-PHY Calibration, Conformance and Characterization Procedures for M819xA AWG, transportable, perpetual License	BER test software
E4990AU-001	Add enhanced measurement speed	Impedance analyzer software
E4991BU-002	Add Material Measurement Firmware	Impedance analyzer software
B4601C-010	Serial-to-Parallel analysis package, fixed perpetual license	Logic analyzer software
B4602A-010	Signal Extractor Tool, fixed perpetual license	Logic analyzer software
B4606A-010	Advanced customization environment - Development and runtime package, fixed perpetual license	Logic analyzer software
B4607A-010	Advanced Customization Environment - Runtime Package, fixed perpetual license	Logic analyzer software
B4608A-010	ASCII Remote Programming Interface includes 16700 backward compatibility, fixed perpetual license	Logic analyzer software
B4610A-010	Data import package, fixed perpetual license	Logic analyzer software
B4621B-010	Bus decoder for DDR2, DDR3, DDR4, node-locked license, perpetual	Logic analyzer software
B4622B-010	Protocol Compliance and Analysis toolset for DDR2/3/4 and LPDDR/LPDDR2/3, node-locked license, perpetual	Logic analyzer software
B4641A-010	Protocol development kit, fixed perpetual license	Logic analyzer software
B4655A-011	FPGA Dynamic Probe Application Software, fixed perpetual license	Logic analyzer software
B4656A-010	FPGA dynamic probe application software - Altera, fixed perpetual license	Logic analyzer software
B4661A-1FP	DDR Decoder with physical address trigger tool, fixed perpetual license	Logic analyzer software

Product	Description	Product Family
B4661A-2FP	LPDDR Decoder, fixed perpetual license	Logic analyzer software
B4661A-3FP	DDR and LPDDR Compliance Violation Analysis, fixed perpetual license	Logic analyzer software
B4661A-4FP	DDR3/4 and LPDDR2/3/4 Performance Analysis, fixed perpetual license	Logic analyzer software
E9520A-001	MPC 8560 Inverse Assembler, fixed perpetual license	Logic analyzer software
E9521A-010	Decoder, ARM11 ETM, fixed perpetual license	Logic analyzer software
E9522A-010	Decoder, Nexus, StarCore 140/3400, fixed perpetual license	Logic analyzer software
E9523A-010	Decoder, Memory bus - MXC, Freescale, fixed perpetual license	Logic analyzer software
E9524A-010	Inverse Assembler, MicroBlaze core, fixed perpetual license	Logic analyzer software
E9526A-010	PPC4xx TracePort Decoder, fixed perpetual license	Logic analyzer software
E9528A-010	ARM Cortex ETM Decoder, fixed perpetual license	Logic analyzer software
E9529A-010	ARM Cortex PTM Decoder, fixed perpetual license	Logic analyzer software
E9584B-001	Inverse Assembler only, fixed perpetual license	Logic analyzer software
E9586A-001	Inverse Assembler only custom probing, fixed perpetual license	Logic analyzer software
E9587A-001	Inverse Assembler only custom probing, fixed perpetual license	Logic analyzer software
E9595A-001	Inverse Assembler only custom probing, fixed perpetual license	Logic analyzer software
E9603A-001	Motorola PowerQUICC II Inverse Assembler, fixed perpetual license	Logic analyzer software
E9610A-010	Motorola MPC555 analysis probe, fixed perpetual license	Logic analyzer software
E9614A-001	Inverse Assembler only, fixed perpetual license	Logic analyzer software
E9616A-010	M-Core Nexus analysis probe, fixed perpetual license	Logic analyzer software
E9618A-001	Inverse Assembler only, fixed perpetual license	Logic analyzer software
E5003A-1FP	Frequency offset mode - Fixed, perpetual license	Network analyzer software
E5004A-1FP	Time domain analysis - Fixed, perpetual license	Network analyzer software
E5005A-1FP	Measurement wizard assistant - Fixed, perpetual license	Network analyzer software
E5006A-1FP	Time domain/Fault location analysis for E5061B, Fixed, Perpetual license	Network analyzer software
E5007A-1FP	Impedance analysis for E5061B-3L5 - Fixed, perpetual license	Network analyzer software
E5061BU-006	Wireless power transfer analysis for E5061B-215/235/3L5	Network analyzer software
E5063AU-006	Wireless power transfer analysis - Fixed, perpetual license	Network analyzer software
E5063AU-010	Time domain analysis	Network analyzer software
E5063AU-011	Time domain analysis/Test Wizard - Fixed, perpetual license	Network analyzer software
E5072AU-006	Wireless power transfer analysis - Fixed, perpetual license	Network analyzer software
E5072AU-008	Frequency offset mode - Fixed, perpetual license	Network analyzer software
E5072AU-010	Time domain analysis - Fixed, perpetual license	Network analyzer software
E5080AU-009	Frequency offset mode for E5080A, Fixed perpetual license	Network analyzer software
E5080AU-010	Time domain analysis for E5080A, Fixed perpetual license	Network analyzer software
E5080AU-790	Measurement wizard assistant software for E5080A, Fixed perpetual license	Network analyzer software
N5221AU-007	Add Automatic Fixture Removal	Network analyzer software
N5221AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5221AU-010	Add Time Domain Operation	Network analyzer software
N5221AU-028	Add Noise Figure Measurement on Standard Receivers	Network analyzer software
N5221AU-080	Add Frequency Offset Mode	Network analyzer software
N5221AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5221AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5221AU-084	Add Embedded LO Application	Network analyzer software
N5221AU-086	Add Gain Compression Application	Network analyzer software
N5221AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5221AU-088	Add Source Phase Control	Network analyzer software
N5221AU-089	Add differential and I/Q devices application	Network analyzer software
N5221AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5221AU-118	Add Fast CW Mode	Network analyzer software
N5221AU-460	Add Integrated TMSA Application	Network analyzer software
N5221AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5222AU-007	Add Automatic Fixture Removal	Network analyzer software
N5222AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5222AU-010	Add Time Domain Operation	Network analyzer software
N5222AU-028	Add Noise Figure Measurement on Standard Receivers	Network analyzer software
N5222AU-080	Add Frequency Offset Mode	Network analyzer software
N5222AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5222AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5222AU-084	Add Embedded LO Application	Network analyzer software
N5222AU-086	Add Gain Compression Application	Network analyzer software
N5222AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5222AU-088	Add Source Phase Control	Network analyzer software
N5222AU-089	Add differential and I/Q devices application	Network analyzer software
N5222AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software

Product	Description	Product Family
N5222AU-118	Add Fast CW Mode	Network analyzer software
N5222AU-460	Add Integrated TMSA Application	Network analyzer software
N5222AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5224AU-007	Add Automatic Fixture Removal	Network analyzer software
N5224AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5224AU-010	Add Time Domain Operation	Network analyzer software
N5224AU-028	Add Noise Figure Measurement on Standard Receivers	Network analyzer software
N5224AU-080	Add Frequency Offset Mode	Network analyzer software
N5224AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5224AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5224AU-084	Add Embedded LO Application	Network analyzer software
N5224AU-086	Add Gain Compression Application	Network analyzer software
N5224AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5224AU-088	Add Source Phase Control	Network analyzer software
N5224AU-089	Add differential and I/Q devices application	Network analyzer software
N5224AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5224AU-118	Add Fast CW Mode	Network analyzer software
N5224AU-460	Add Integrated TMSA Application	Network analyzer software
N5224AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5225AU-007	Add Automatic Fixture Removal	Network analyzer software
N5225AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5225AU-010	Add Time Domain Operation	Network analyzer software
N5225AU-028	Add Noise Figure Measurement on Standard Receivers	Network analyzer software
N5225AU-080	Add Frequency Offset Mode	Network analyzer software
N5225AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5225AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5225AU-084	Add Embedded LO Application	Network analyzer software
N5225AU-086	Add Gain Compression Application	Network analyzer software
N5225AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5225AU-088	Add Source Phase Control	Network analyzer software
N5225AU-089	Add differential and I/Q devices application	Network analyzer software
N5225AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5225AU-118	Add Fast CW Mode	Network analyzer software
N5225AU-460	Add Integrated TMSA Application	Network analyzer software
N5225AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5227AU-007	Add Automatic Fixture Removal	Network analyzer software
N5227AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5227AU-010	Add Time Domain Operation	Network analyzer software
N5227AU-080	Add Frequency Offset Mode	Network analyzer software
N5227AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5227AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5227AU-084	Add Embedded LO Application	Network analyzer software
N5227AU-088	Source Phase Control	Network analyzer software
N5227AU-089	Add differential and I/Q devices application	Network analyzer software
N5227AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5227AU-118	Add Fast CW Mode	Network analyzer software
N5227AU-460	Add Integrated TMSA Application	Network analyzer software
N5227AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5230CU-010	Add time domain operation	Network analyzer software
N5230CU-080	Frequency offset mode	Network analyzer software
N5230CU-082	Scalar calibrated converter measurements	Network analyzer software
N5230CU-550	Add 4-port measurement application	Network analyzer software
N5230CU-551	Add N-port calibrated measurements	Network analyzer software
N5231AU-007	Add Automatic Fixture Removal	Network analyzer software
N5231AU-010	Add Time Domain Operation	Network analyzer software
N5231AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5232AU-007	Add Automatic Fixture Removal	Network analyzer software
N5232AU-010	Add Time Domain Operation	Network analyzer software
N5232AU-080	Add Frequency Offset Mode	Network analyzer software
N5232AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5232AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5234AU-007	Add Automatic Fixture Removal	Network analyzer software
N5234AU-010	Add Time Domain Operation	Network analyzer software
N5234AU-551	Add N-Port Calibrated Measurements	Network analyzer software

Product	Description	Product Family
N5235AU-007	Add Automatic Fixture Removal	Network analyzer software
N5235AU-010	Add Time Domain Operation	Network analyzer software
N5235AU-080	Add Frequency Offset Mode	Network analyzer software
N5235AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5239AU-007	Add Automatic Fixture Removal	Network analyzer software
N5239AU-010	Add Time Domain Operation	Network analyzer software
N5239AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5241AU-007	Add Automatic Fixture Removal	Network analyzer software
N5241AU-008	Add Pulsed RF Measurements	Network analyzer software
N5241AU-010	Add Time Domain Operation	Network analyzer software
N5241AU-028	Add Noise Figure Measurements Using Standard Receivers	Network analyzer software
N5241AU-080	Add Frequency Offset Mode	Network analyzer software
N5241AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5241AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5241AU-084	Add Embedded LO Application	Network analyzer software
N5241AU-086	Add Gain Compression Application	Network analyzer software
N5241AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5241AU-088	Source Phase Control	Network analyzer software
N5241AU-089	Add differential and I/Q devices application	Network analyzer software
N5241AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5241AU-118	Add Fast CW Mode	Network analyzer software
N5241AU-460	Add Integrated TMSA Application	Network analyzer software
N5241AU-510	Add nonlinear component characterization, full frequency range	Network analyzer software
N5241AU-514	Add Nonlinear X-Parameters	Network analyzer software
N5241AU-518	Add Nonlinear Pulse Envelope Domain	Network analyzer software
N5241AU-520	Arbitrary load impedance X-parameters	Network analyzer software
N5241AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5242AU-007	Add Automatic Fixture Removal	Network analyzer software
N5242AU-008	Add Pulsed RF Measurements	Network analyzer software
N5242AU-010	Add Time Domain Operation	Network analyzer software
N5242AU-028	Add basic noise figure measurements	Network analyzer software
N5242AU-080	Add frequency offset mode	Network analyzer software
N5242AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5242AU-083	Add Vector and Scalar Calibrated Converter Measurements	Network analyzer software
N5242AU-084	Add embedded LO measurements	Network analyzer software
N5242AU-086	Add Gain Compression Application	Network analyzer software
N5242AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5242AU-088	Source Phase Control	Network analyzer software
N5242AU-089	Add differential and I/Q devices application	Network analyzer software
N5242AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5242AU-118	Add Fast CW Mode	Network analyzer software
N5242AU-460	Add Integrated TMSA Application	Network analyzer software
N5242AU-510	Add nonlinear component characterization, full frequency range	Network analyzer software
N5242AU-514	Add Nonlinear X-Parameters	Network analyzer software
N5242AU-518	Add Nonlinear Pulse Envelope Domain	Network analyzer software
N5242AU-520	Arbitrary load impedance X-parameters	Network analyzer software
N5242AU-551	Add N-port calibrated measurements	Network analyzer software
N5242AU-929	Add Noise Figure Measurement Capability to 4 Port Analyzer, Option 029 Upgrade	Network analyzer software
N5244AU-007	Add Automatic Fixture Removal	Network analyzer software
N5244AU-008	Add Pulsed RF Measurements	Network analyzer software
N5244AU-010	Add Time Domain Operation	Network analyzer software
N5244AU-028	Add Noise Figure Measurements Using Standard Receivers	Network analyzer software
N5244AU-080	Add Frequency Offset Mode	Network analyzer software
N5244AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5244AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5244AU-084	Add Embedded LO Application	Network analyzer software
N5244AU-086	Add Gain Compression Application	Network analyzer software
N5244AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5244AU-088	Source Phase Control	Network analyzer software
N5244AU-089	Add differential and I/Q devices application	Network analyzer software
N5244AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5244AU-118	Add Fast CW Mode	Network analyzer software
N5244AU-460	Add Integrated TMSA Application	Network analyzer software

Product	Description	Product Family
N5244AU-510	Add nonlinear component characterization, full frequency range	Network analyzer software

N5245AU-010	Add Time Domain Operation	Network analyzer software
N5245AU-028	Add Noise Figure Measurements Using Standard Receivers	Network analyzer software
N5245AU-080	Add Frequency Offset Mode	Network analyzer software
N5245AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5245AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5245AU-084	Add Embedded LO Application	Network analyzer software
N5245AU-086	Add Gain Compression Application	Network analyzer software
N5245AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5245AU-088	Source Phase Control	Network analyzer software
N5245AU-089	Add differential and I/Q devices application	Network analyzer software
N5245AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5245AU-118	Add Fast CW Mode	Network analyzer software
N5245AU-460	Add Integrated TMSA Application	Network analyzer software
N5245AU-510	Add nonlinear component characterization, full frequency range	Network analyzer software
N5245AU-514	Add Nonlinear X-Parameters	Network analyzer software
N5245AU-518	Add Nonlinear Pulse Envelope Domain	Network analyzer software
N5245AU-520	Arbitrary load impedance X-parameters	Network analyzer software
N5245AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5247AU-007	Add Automatic Fixture Removal	Network analyzer software
N5247AU-008	Add Pulsed RF Measurement Capability	Network analyzer software
N5247AU-010	Add Time Domain Operation	Network analyzer software
N5247AU-028	Add Noise Figure Measurements Using Standard Receivers	Network analyzer software
N5247AU-080	Add Frequency Offset Mode	Network analyzer software
N5247AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5247AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5247AU-084	Add Embedded LO Application	Network analyzer software
N5247AU-086	Add Gain Compression Application	Network analyzer software
N5247AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5247AU-088	Source Phase Control	Network analyzer software
N5247AU-089	Add differential and I/Q devices application	Network analyzer software
N5247AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5247AU-118	Add Fast CW Mode	Network analyzer software
N5247AU-460	Add Integrated TMSA Application	Network analyzer software
N5247AU-510	Add nonlinear component characterization, full frequency range	Network analyzer software
N5247AU-514	Add Nonlinear X-Parameters	Network analyzer software
N5247AU-518	Add Nonlinear Pulse Envelope Domain	Network analyzer software
N5247AU-520	Arbitrary Load Impedance X-Parameters	Network analyzer software
N5247AU-551	Add N-Port Calibrated Measurements	Network analyzer software
N5249AU-007	Add Automatic Fixture Removal	Network analyzer software
N5249AU-008	Add Pulsed RF Measurements	Network analyzer software
N5249AU-010	Add Time Domain Operation	Network analyzer software
N5249AU-020	Add IF Inputs for Antenna and mm-Wave	Network analyzer software
N5249AU-021	Add Pulse Modulator to 1st Source	Network analyzer software
N5249AU-022	Add Pulse Modulator to 2nd Source	Network analyzer software
N5249AU-025	Add 4 Internal Pulse Generators	Network analyzer software
N5249AU-028	Add Noise Figure Measurements Using Standard Receivers	Network analyzer software
N5249AU-080	Add Frequency Offset Mode	Network analyzer software
N5249AU-082	Add Scalar Calibrated Converter Measurements	Network analyzer software
N5249AU-083	Add Frequency Converter Measurement Application	Network analyzer software
N5249AU-084	Add Embedded LO Application	Network analyzer software
N5249AU-086	Add Gain Compression Application	Network analyzer software
N5249AU-087	Add Intermodulation Distortion Measurements	Network analyzer software
N5249AU-088	Add Source Phase Control	Network analyzer software
N5249AU-089	Add differential and I/Q devices application	Network analyzer software
N5249AU-090	Add Spectrum Analyzer Upgrade Option	Network analyzer software
N5249AU-118	Add Fast CW Mode	Network analyzer software
N5249AU-460	Add Integrated TMSA Application	Network analyzer software

DSO90000-081	USB 3.1 10G + 5G compliance software, fixed perpetual license	Oscilloscope software
DSO90000-083	Electrical Performance Validation compliance application eDP 1.4, fixed perpetual license	Oscilloscope software
DSO90000-084	10/100 Ethernet Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software

Product	Description	Product Family
DSO90000-085	DisplayPort 1.3 Electrical Performance Validation and Compliance, fixed perpetual license	Oscilloscope software
DSO90000-086	USB 3.1 Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
DSO90000-087	eSPI and Quad eSPI Protocol Decode and Trigger, fixed perpetual license	Oscilloscope software
DSO90000-089	Hybrid Memory Cube Compliance Test, fixed perpetual license	Oscilloscope software
DSO90000-090	MIPI C-PHY Compliance, fixed perpetual license	Oscilloscope software
DSO90000-091	USB-PD Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
DSO90000-092	IEEE 802.3bs Draft PAM-4 Measurements, fixed perpetual license	Oscilloscope software
DSO90000-093	CAN, LIN, FlexRay and CAN-FD Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
DSO90000-712	10GBASE-T switch matrix, fixed perpetual license	Oscilloscope software
DSO90000-713	LPDDR3 switch matrix, fixed perpetual license	Oscilloscope software
DSO90000-714	DisplayPort 1.3 Switch Matrix control, fixed perpetual license	Oscilloscope software
DSO90000-715	PAM4 Measurement switch matrix, fixed perpetual license	Oscilloscope software
DSO90000-717	Hybrid Memory Cube Switch Matrix control, fixed perpetual license	Oscilloscope software
DSO9000-076	10/100 Ethernet Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
DSO90000A- 059	OIF-CEI 56G Draft PAM-4 Measurements, fixed perpetual license	Oscilloscope software
DSOS000-DSA	DSA Software Bundle, fixed perpetual license	Oscilloscope software
E2681A-1FP	EZJIT Jitter Analysis Software, fixed perpetual license	Oscilloscope software
E2681B-1FP	EZJIT Jitter Analysis Software, fixed perpetual license	Oscilloscope software
E2688A-1FP	Serial Data Analysis, fixed perpetual license	Oscilloscope software
MSO9000-058	DDR4 compliance test software application, installed fixed perpetual license	Oscilloscope software
MSO9000-076	10/100 Ethernet Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
MSOV000-DSA	DSA includes 100M memory, high-speed SDA and EZJIT complete features installed	Oscilloscope software
N1010A	FlexDCA, Remote Access Software for the 86100C/D DCA, Fixed Perpetual license	Oscilloscope software
N2808A-1FP	PrecisionProbe, fixed perpetual license	Oscilloscope software
N2809A-1FP	PrecisionProbe Software, fixed perpetual license	Oscilloscope software
N5384A-1FP	High-speed SDA and clock recovery, fixed perpetual license	Oscilloscope software
N5391A-1FP	I2C/SPI Protocol Decode with Triggering, fixed perpetual license	Oscilloscope software
N5391B-1FP	I2C/SPI Protocol Decode with Triggering, fixed perpetual license	Oscilloscope software
N5392B-1FP	Energy Efficient Ethernet Compliance Application, fixed perpetual license	Oscilloscope software
N5392B-3FP	Ethernet compliance application only, fixed perpetual license	Oscilloscope software
N5392C-1FP	Ethernet compliance with Energy Efficient Ethernet, fixed perpetual license	Oscilloscope software
N5392C-3FP	Ethernet compliance application only, fixed perpetual license	Oscilloscope software
N5393D-1FP	PCIe Compliance Application for PCIe 1.0, 1.1, 2.0 and 3.0, fixed perpetual license	Oscilloscope software
N5393D-3FP	PCIe compliance application for PCIe 1.0, 1.1 and 2.0, fixed perpetual license	Oscilloscope software
N5393D-4FP	PCIe 3.0 receiver test calibration, fixed perpetual license	Oscilloscope software
N5393D-7FP	PCIe Switch Matrix control, fixed perpetual license	Oscilloscope software
N5393E-3FP	PCIe compliance application for PCIe 1.0, 1.1 and 2.0, fixed perpetual license	Oscilloscope software
N5393E-7FP	PCIe Switch Matrix control, fixed perpetual license	Oscilloscope software
N5399C-1FP	HDMI 2.0 electrical performance validation and compliance test, fixed perpetual license	Oscilloscope software
N5399C-3FP	HDMI 1.4 electrical performance validation and compliance test, fixed perpetual license	Oscilloscope software
N5399C-7FP	HDMI Switch Matrix control, fixed perpetual license	Oscilloscope software
N5399D-3FP	HDMI 1.4 validation and compliance test, fixed perpetual license	Oscilloscope software
N5399D-7FP	HDMI Switch Matrix control, fixed perpetual license	Oscilloscope software
N5400A-1FP	EZJIT+ jitter analysis software, fixed perpetual license	Oscilloscope software
N5400B-1FP	EZJIT+ Jitter Analysis SW for Infiniium 9000 and S series Oscilloscopes, fixed perpetual license	Oscilloscope software
N5411B-1FP	SATA 6Gb/s compliance application, fixed perpetual license	Oscilloscope software
N5412D-1FP	SAS-3 Compliance Test Application, fixed perpetual license	Oscilloscope software
N5412D-3FP	SAS-2 Compliance Test Application, fixed perpetual license	Oscilloscope software
N5413B-1FP	DDR2 and LPDDR2 Compliance Test Application, fixed perpetual license	Oscilloscope software
N5413B-2FP	Upgrade to LPDDR2 Compliance Software, fixed perpetual license	Oscilloscope software
N5413C-1FP	DDR2 and LPDDR2 Compliance Test Application, fixed perpetual license	Oscilloscope software
N5413C-3FP	DDR2 and LPDDR2 Debug Tool, fixed perpetual license	Oscilloscope software
N5414B-1FP	InfiniiScan Event Identification Software, fixed perpetual license	Oscilloscope software
N5415B-1FP	InfiniiScan event identification software, fixed perpetual license	Oscilloscope software

Product	Description	Product Family
N5416A-1FP	USB 2.0 Compliance Software, fixed perpetual license	Oscilloscope software
N5416B-1FP	USB 2.0 Compliance Software, fixed perpetual license	Oscilloscope software
N5430A-1FP	User Defined Function, fixed perpetual license	Oscilloscope software
N5430B-1FP	User defined function application, fixed perpetual license	Oscilloscope software
N5431A-1FP	XAUI compliance application, fixed perpetual license	Oscilloscope software
N5431B-1FP	XAUI compliance application, fixed perpetual license	Oscilloscope software

N5459C-1FP	DDR Compliance Software Bundle, fixed perpetual license	Oscilloscope software
N5461A-1FP	Equalization Emulation software, fixed perpetual license	Oscilloscope software
N5461B-1FP	Equalization Emulation software, fixed perpetual license	Oscilloscope software
N5462A-1FP	RS-232/UART decode application, fixed perpetual license	Oscilloscope software
N5462B-1FP	RS-232/UART triggering and decode application, fixed perpetual license	Oscilloscope software
N5463A-1FP	PCI-Express protocol, fixed perpetual license	Oscilloscope software
N5463B-1FP	PCI-Express triggering and decode application, fixed perpetual license	Oscilloscope software
N5464A-1FP	USB 2.0 Protocol Decode Software, fixed perpetual license	Oscilloscope software
N5464A-1TP	USB 2.0 Protocol Decode Software, fixed perpetual license	Oscilloscope software
N5464B-1FP	USB 2.0 Protocol Decode Software with Triggering, fixed perpetual license	Oscilloscope software
N5465A-1FP	InfiniiSim Advanced, fixed perpetual license	Oscilloscope software
N5465A-3FP	InfiniiSim Basic, fixed perpetual license	Oscilloscope software
N5465B-1FP	InfiniiSim Advanced Software, fixed perpetual license	Oscilloscope software
N5465B-3FP	InfiniiSim Basic Software, fixed perpetual license	Oscilloscope software
N5467B-1FP	User Defined Application, fixed perpetual license	Oscilloscope software
N5467B-7FP	UDA Switch Matrix Control, fixed perpetual license	Oscilloscope software
N5467C-1FP	User Defined Application, fixed perpetual license	Oscilloscope software
N5467C-7FP	UDA Switch Matrix Control, fixed perpetual license	Oscilloscope software
N6460B-1FP	MHL 3.0 compliance test software, fixed perpetual license	Oscilloscope software
N6460B-3FP	MHL 1.x/2.x compliance test, fixed perpetual license	Oscilloscope software
N6461A-1FP	SD UHS-II card Compliance Test Software application, fixed perpetual license	Oscilloscope software
N6461B-1FP	SD UHS-II card compliance software, fixed perpetual license	Oscilloscope software
N6462A-1FP	DDR4 and LPDDR4 compliance test software application, fixed perpetual license	Oscilloscope software
N6462A-3FP	DDR4 Debug Tool, fixed perpetual license	Oscilloscope software
N6462A-4FP	LPDDR4 Debug Tool, fixed perpetual license	Oscilloscope software
N6462B-1FP	DDR4 and LPDDR4 compliance test software, fixed perpetual license	Oscilloscope software
N6462B-3FP	DDR4 Debug Tool, fixed perpetual license	Oscilloscope software
N6462B-4FP	LPDDR4 Debug Tool, fixed perpetual license	Oscilloscope software
N6463B-1FP	Thunderbolt compliance test software for Infiniium oscilloscopes, fixed perpetual license	Oscilloscope software
N6465A-1FP	Compliance and validation software eMMC, fixed perpetual license	Oscilloscope software
N6465B-1FP	Compliance software eMMC, fixed perpetual license	Oscilloscope software
N6466A-1FP	MOST Compliance Application, fixed perpetual license	Oscilloscope software
N6466B-1FP	MOST Compliance Application, fixed perpetual license	Oscilloscope software
N6467A-1FP	BroadR-Reach compliance software, fixed perpetual license	Oscilloscope software
N6467B-1FP	BroadR-Reach compliance software, fixed perpetual license	Oscilloscope software
N6468A-1FP	SFP+ compliance application, fixed perpetual license	Oscilloscope software
N6468A-7FP	QSFP+ Switch Matrix, fixed perpetual license	Oscilloscope software
N6469A-1FP	Electrical Performance Validation compliance application eDP 1.4, fixed perpetual license	Oscilloscope software
N8800B-1FP	I2C, SPI, RS-232 Protocol Decode Software with Triggering, fixed perpetual license	Oscilloscope software
N8801A-1FP	SATA/SAS protocol decode, fixed perpetual license	Oscilloscope software
N8801B-1FP	SATA/SAS protocol decode, fixed perpetual license	Oscilloscope software
N8802A-1FP	MIPI D-PHY protocol decode, fixed perpetual license	Oscilloscope software
N8802B-1FP	MIPI D-PHY protocol decode, fixed perpetual license	Oscilloscope software
N8803A-1FP	CAN/FlexRay Protocol Decode Software, fixed perpetual license	Oscilloscope software
N8803B-1FP	CAN, LIN, FlexRay triggering and decode application, fixed perpetual license	Oscilloscope software
N8803C-1FP	CAN, LIN, FlexRay and CAN-FD Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8805A-1FP	USB 3.0 protocol decode, fixed perpetual license	Oscilloscope software
N8805B-1FP	USB 3.0 protocol decode, fixed perpetual license	Oscilloscope software
N8807A-1FP	DigRF v4 protocol decode, fixed perpetual license	Oscilloscope software
N8807B-1FP	DigRF v4 protocol decode, fixed perpetual license	Oscilloscope software
N8808A-1FP	UniPro Protocol Decode, fixed perpetual license	Oscilloscope software

Product	Description	Product Family
N8808B-1FP	UniPro protocol decode, fixed perpetual license	Oscilloscope software
N8809A-1FP	LLI Protocol Decode, fixed perpetual license	Oscilloscope software
N8809B-1FP	LLI protocol decode, fixed perpetual license	Oscilloscope software
N8812A-1FP	SVID Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8812B-1FP	SVID Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8814B-1FP	Ethernet KR compliance application, fixed perpetual license	Oscilloscope software
N8814B-7FP	Ethernet KR Switch Matrix control, fixed perpetual license	Oscilloscope software
N8815A-1FP	Ethernet 64/66 Protocol and Decode Software, fixed perpetual license	Oscilloscope software
N8816A-1FP	PCIe Protocol Decode Software (1.0, 1.1, 2.0, 3.0), fixed perpetual license	Oscilloscope software
N8817A-1FP	JTAG Protocol Decode, fixed perpetual license	Oscilloscope software
N8817B-1FP	JTAG Protocol Decode for Infinium 9K/90K scopes, fixed perpetual license	Oscilloscope software
N8818A-1FP	Universal Flash Storage (UFS) Protocol decode, fixed perpetual license	Oscilloscope software
N8818B-1FP	Universal Flash Storage (UFS) protocol decode, fixed perpetual license	Oscilloscope software
N8819A-1FP	USB 3.0 SuperSpeed Inter-Chip (SSIC) protocol decode, fixed perpetual license	Oscilloscope software
N8819B-1FP	USB 3.0 SuperSpeed Inter-Chip (SSIC) protocol decode, fixed perpetual license	Oscilloscope software
N8820A-1FP	MIPI CSI-3 (M-PHY) protocol decode, fixed perpetual license	Oscilloscope software
N8820B-1FP	MIPI CSI-3 (M-PHY) protocol decode, fixed perpetual license	Oscilloscope software
N8821A-1FP	USB 3.1 Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8821B-1FP	USB 3.1 Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8823A-1FP	EZJIT Complete vertical noise analysis software, fixed perpetual license	Oscilloscope software
N8823B-1FP	EZJIT Complete vertical noise analysis software, fixed perpetual license	Oscilloscope software
N8824A-1FP	MIPI RFFE Protocol decode , fixed perpetual license	Oscilloscope software
N8824B-1FP	MIPI RFFE protocol decode, fixed perpetual license	Oscilloscope software
N8825A-1FP	10/100 Ethernet Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8825B-1FP	10/100 Ethernet Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8827A-1FP	Pulse Amplitude Modulation Tool, fixed perpetual license	Oscilloscope software
N8827B-1FP	Pulse Amplitude Modulation Tool, fixed perpetual license	Oscilloscope software
N8828A-1FP	40GBASE-CR4 and 100GBASE-CR10 compliance application, fixed perpetual license	Oscilloscope software
N8828A-7FP	40GBASE-CR4 and 100GBASE-CR10 switch matrix, fixed perpetual license	Oscilloscope software
N8829A-1FP	100GBASE-KR4 compliance application, fixed perpetual license	Oscilloscope software
N8829A-7FP	100GBASE-KR4 switch matrix, fixed perpetual license	Oscilloscope software
N8830A-1FP	100GBASE-CR4 compliance application, fixed perpetual license	Oscilloscope software
N8830A-7FP	100GBASE-CR4 switch matrix, fixed perpetual license	Oscilloscope software
N8833A-1FP	Crosstalk Analysis Tool, fixed perpetual license	Oscilloscope software
N8833B-1FP	Crosstalk Analysis Tool for Infinium S-Series Oscilloscopes, fixed perpetual license	Oscilloscope software
N8834A-AFP	MultiScope software (connect 2 oscilloscopes), fixed perpetual license	Oscilloscope software
N8834A-BFP	MultiScope software (connect up to 5 oscilloscopes), fixed perpetual license	Oscilloscope software
N8834A-CFP	MultiScope software (connect up to 10 oscilloscopes), fixed perpetual license	Oscilloscope software
N8835A-1FP	eSPI and Quad eSPI Protocol Decode and Trigger, fixed perpetual license	Oscilloscope software
N8836A-1FP	IEEE 802.3bs Draft PAM-4 Measurements, fixed perpetual license	Oscilloscope software
N8836A-4FP	OIF-CEI 56G Draft PAM-4 Measurements, fixed perpetual license	Oscilloscope software
N8836A-7FP	PAM-4 Measurement switch matrix, fixed perpetual license	Oscilloscope software
N8837A-1FP	USB-PD Protocol Triggering and Decode, fixed perpetual license	Oscilloscope software
N8839A-1FP	Hybrid Memory Cube Compliance Test, fixed perpetual license	Oscilloscope software
N8839A-7FP	Hybrid Memory Cube Switch Matrix control, fixed perpetual license	Oscilloscope software
N8900A-001	Base license, transportable perpetual license	Oscilloscope software
N8900A-002	DSA bundle (includes EZJIT, EZJIT +, EZJIT Complete, SDA), transportable perpetual license	Oscilloscope software
N8900A-003	Analysis bundle (includes InfiniiSim, equalization, UDF), transportable perpetual license	Oscilloscope software
N8900A-004	Low Speed Protocol bundle, transportable perpetual license	Oscilloscope software
N8900A-005	High Speed Protocol bundle, transportable perpetual license	Oscilloscope software
N8900A-007	Infinium Offline Software Package Add-ons for 2016, transportable perpetual license	Oscilloscope software
U1882B-1FP	Power measurement analysis software, fixed perpetual license	Oscilloscope software
U7231B-1FP	DDR3 and LPDDR3 Compliance Software, fixed perpetual license	Oscilloscope software
U7231B-3FP	DDR3 and LPDDR3 Debug Tool, fixed perpetual license	Oscilloscope software

V9073B-2FP	HSDPA/HSUPA measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9073B-3FP	HSPA+ measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9075B-2FP	Mobile WiMAX measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9076B-1FP	1xEV-DO measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-2FP	WLAN 802.11 a/b/g measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF

Product	Description	Product Family
V9077B-3FP	WLAN 802.11 n measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-4FP	WLAN 802.11 ac measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-6FP	WLAN 802.11 ah measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-7FP	WLAN 802.11 af measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-HFP	1024 QAM measurements, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-KFP	WLAN Combined Stream MIMO measurements, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-VFP	80 + 80 measurement, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9077B-WFP	WLAN 802.11 ac Wave 2 measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9079B-1FP	TD-SCDMA measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9079B-2FP	TD-HSPA measurement application, fixed perpetual license, requires 1FP or 1TP	Wireless test set software, X-Series measurement apps for EXM and EXF
V9080B-1FP	LTE FDD measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9080B-2FP	LTE-Advanced FDD measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9081B-2FP	Bluetooth measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9082B-1FP	LTE TDD measurement application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
V9082B-2FP	LTE-Advanced TDD Measurement Application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9071B-2FP	GSM/EDGE measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9071B-3FP	EDGE Evo measurement and waveform application, fixed perpetual license, requires 2FP or 2TP	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9072B-2FP	CDMA2000 measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9073B-1FP	W-CDMA measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9073B-2FP	HSDPA/HSUPA measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9073B-3FP	HSPA+ measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9075B-2FP	Mobile WiMAX measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9076B-1FP	1xEV-DO measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9077B-2FP	WLAN 802.11 a/b/g/p measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9077B-3FP	WLAN 802.11 n measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9077B-4FP	WLAN 802.11 ac measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9077B-6FP	WLAN 802.11 ah measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9077B-WFP	WLAN 802.11 ac Wave 2 measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9080B-1FP	LTE FDD measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9080B-2FP	LTE-Advanced FDD measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9081B-2FP	Bluetooth measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
Y9082B-1FP	LTE TDD measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF

Product	Description	Product Family
Y9082B-2FP	LTE-Advanced TDD measurement and waveform application, fixed perpetual license	Wireless test set software, X-Series measurement apps for EXM and EXF
M9063A-2TP	Analog demodulation measurement application, transportable perpetual license	X-Series measurement applications for modular
M9063A-3TP	FM stereo measurement applications, transportable perpetual license	X-Series measurement applications for modular
M9064A-1TP	Vector signal analysis application, VXA, transportable perpetual license	X-Series measurement applications for modular
M9064A-2TP	Flexible digital modulation analysis measurement application, fixed transportable license	X-Series measurement applications for modular
M9068A-2TP	Phase Noise measurement application, transportable perpetual license	X-Series measurement applications for modular
M9071A-2TP	GSM/EDGE measurement application, transportable perpetual license	X-Series measurement applications for modular
M9071A-3TP	EDGE Evo measurement application, transportable perpetual license	X-Series measurement applications for modular
M9071A-XTP	GSM/EDGE combined measurement application, transportable perpetual, license	X-Series measurement applications for modular
M9072A-2TP	CDMA2000 measurement application, transportable perpetual license	X-Series measurement applications for modular
M9073A-1TP	W-CDMA measurement application, transportable perpetual license	X-Series measurement applications for modular
M9073A-2TP	HSDPA / HSUPA measurement application, transportable perpetual license	X-Series measurement applications for modular
M9073A-3TP	HSPA+ measurement application, transportable perpetual license	X-Series measurement applications for modular
M9073A-XTP	W-CDMA single acquisition combined measurement application, transportable perpetual, license	X-Series measurement applications for modular
M9076A-1TP	1xEV-DO measurement application, transportable perpetual license	X-Series measurement applications for modular
M9077A-2TP	WLAN 802.11a/b/g measurement application, transportable perpetual license	X-Series measurement applications for modular
M9077A-3TP	WLAN 802.11n measurement application, transportable perpetual license	X-Series measurement applications for modular
M9077A-4TP	WLAN 802.11ac measurement application, transportable perpetual license	X-Series measurement applications for modular
M9079A-1TP	TD-SCDMA measurement application, transportable perpetual license	X-Series measurement applications for modular
M9079A-2TP	HSPA measurement application, transportable perpetual license	X-Series measurement applications for modular
M9080B-1TP	LTE FDD measurement application, transportable perpetual license	X-Series measurement applications for modular
M9080B-2TP	LTE-Advanced FDD measurement application, transportable perpetual license	X-Series measurement applications for modular
M9081A-2TP	Bluetooth measurement application, transportable perpetual license	X-Series measurement applications for modular
M9082B-1TP	LTE TDD measurement application, transportable perpetual license	X-Series measurement applications for modular
M9082B-2TP	LTE-Advanced TDD measurement application, transportable perpetual license	X-Series measurement applications for modular
M9370AU-010	Add Time Domain Operation	X-Series measurement applications for modular
M9370AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9370AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9371AU-010	Add Time Domain Operation	X-Series measurement applications for modular
M9371AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9371AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9372AU-010	Add Time Domain Operation	X-Series measurement applications for modular

Product	Description	Product Family
M9372AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9372AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9373AU-010	Add Time Domain Operation	X-Series measurement applications for modular
M9373AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9373AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9374AU-010	Add Time Domain Operation	X-Series measurement applications for modular
M9374AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9374AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9375AU-010	Add Time Domain Operation	X-Series measurement applications for modular
M9375AU-102	Advanced VNA features and capabilities	X-Series measurement applications for modular
M9375AU-551	Add N-Port Calibrated Measurements	X-Series measurement applications for modular
M9485AU-025	Basic RF Pulse Measurements, transportable perpetual license	X-Series measurement applications for modular
M9485AU-086	Gain compression application, transportable perpetual license	X-Series measurement applications for modular
N6141A-2FP	EMI measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6152A-2FP	DVB-C/J.83 Annex A/C measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6152A-3FP	J.83 Annex B measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6153A-2FP	DVB-T/H Measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6153A-3FP	DVB-T2 measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6155A-2FP	ISDB-T Measurement Application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6155A-3FP	ISDB-Tmm, Measurement Application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6156A-2FP	DTMB (CTTB) measurement application, fixed perpetual license	X-Series measurement applications for MXE EMI
N6158A-2FP	CMMB Measurement Application, fixed perpetual license	X-Series measurement applications for MXE EMI
N9051B-2FP	Pulse measurement software, fixed perpetual, license	X-Series signal analyzer measurement applications
N9051B-3FP	Phase and frequency measurements, fixed perpetual license	X-Series signal analyzer measurement applications
N9051B-4FP	Extended analysis and statistics, fixed perpetual license	X-Series signal analyzer measurement applications
N9051B-5FP	Deep capture, fixed perpetual license	X-Series signal analyzer measurement applications
N9061A-1FP	Remote language compatibility, 8566/68, fixed perpetual license	X-Series signal analyzer measurement applications
N9061A-2FP	Remote language compatibility, 856xE/EC, fixed perpetual license	X-Series signal analyzer measurement applications
N9063A-2FP	Analog Demodulation Measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9063A-3FP	FM stereo measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9063C-1FP	Analog demodulation measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9064A-1FP	Vector signal analysis application, VXA, fixed perpetual license	X-Series signal analyzer measurement applications

Product	Description	Product Family
N9064A-2FP	Flexible digital modulation analysis measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9067C-1FP	Embedded pulse measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9068A-2FP	Phase noise measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9068C-2FP	Phase noise measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9069A-1FP	Noise figure measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9069A-2FP	Noise figure measurement application advanced features, fixed perpetual license	X-Series signal analyzer measurement applications
N9069C-3FP	Noise figure measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9071A-2FP	GSM/EDGE measurement application, fixed perpetual, license	X-Series signal analyzer measurement applications
N9071A-3FP	EDGE Evo measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9071A-XFP	Single acquisition combined GSM/EDGE measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9072A-2FP	CDMA2000 measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073A-1FP	W-CDMA Measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073A-2FP	HSDPA/HSUPA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073A-3FP	HSPA+ Measurement Application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073A-XFP	Single acquisition combined W-CDMA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073C-1FP	W-CDMA Measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073C-2FP	HSDPA/HSUPA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073C-3FP	HSPA+ Measurement Application, fixed perpetual license	X-Series signal analyzer measurement applications
N9073C-XFP	Single acquisition combined W-CDMA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9074A-XFP	Single acquisition combined WiMAX measurement application, fixed perpetual, license	X-Series signal analyzer measurement applications
N9075A-2FP	Mobile WiMAX measurement application, fixed perpetual, license	X-Series signal analyzer measurement applications
N9076A-1FP	1xEV-DO measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9077A-2FP	WLAN 802.11a/b/g/j/p measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9077A-3FP	WLAN 802.11n measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9077A-4FP	WLAN 802.11ac measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9077A-6FP	WLAN 802.11ah measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9079A-1FP	TD-SCDMA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9079A-2FP	HSPA measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9080B-1FP	LTE FDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9080B-2FP	LTE-Advanced FDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9080C-1FP	LTE FDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9080C-2FP	LTE-Advanced FDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications

Product	Description	Product Family
N9081A-2FP	Bluetooth measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9082B-1FP	LTE TDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9082B-2FP	LTE-Advanced TDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9082C-1FP	LTE TDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9082C-2FP	LTE-Advanced TDD measurement application, fixed perpetual license	X-Series signal analyzer measurement applications
N9083A-1FP	Multi-Standard Radio, MSR, measurement application, fixed perpetual license	X-Series signal analyzer measurement applications

Evolving

Our unique combination of hardware, software, support, and people can help you reach your next breakthrough. **We are unlocking the future of technology.**
