

# Eggplant Professional Services

## Accelerate and Scale Your Test Automation Team

Eggplant Professional Services offers comprehensive, end-to-end test automation assistance to help your team onboard and manage the Eggplant Test solution. Our experts will take the driver's seat and accelerate any test automation project with a customized and flexible approach and, as a result, speed your time to market with Keysight's leading test automation solutions.

"We worked closely with Eggplant on the development and implementation of the new architecture needed to support our remote testing goals, and the support team was incredibly helpful throughout the process ..."

*Di Ruzza, Test Architect, Nationwide*

# Fast-track your digital transformation to AI-Driven Automated Testing

QA Teams challenged with the demands of CI/CD release schedules require accelerated testing to meet deadlines. While automation has promised to address demanding schedules, how can you successfully transition and scale simultaneously? With Eggplant Professional Services as a partner, you can benefit from the experience and expertise of our test automation consultants.

## Why Choose Eggplant Professional Services?

### Confidence

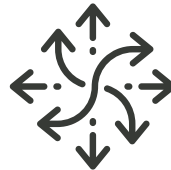

Scale confidently with assistance from an experienced Professional Services team who can train and operationalize your organization quickly and effectively.

### Scalability

An engagement model that includes the right people for your augmentation needs at the right time, from Architects to guide your test automation strategies to Test Engineers to deliver them.

### Versatility

Bespoke services tailored to your team's individual needs and schedule. Our engagement teams can design a solution and approach specifically for your business.

### Expertise

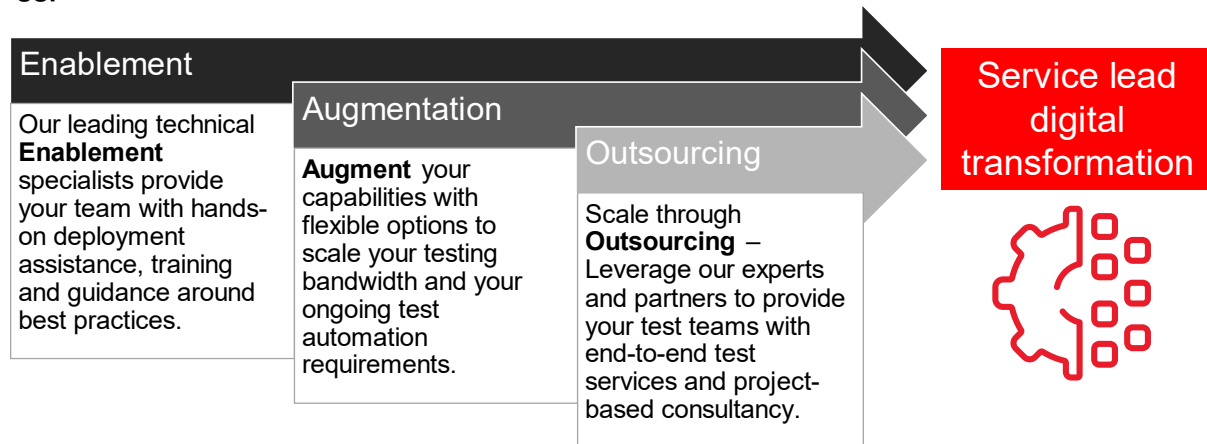

Our specialists offer decades of combined experience implementing and driving test automation projects for the largest enterprise QA teams right down to the smallest test projects

# What do we deliver?

Eggplant Professional Services deliver tailored test automation services to help you get to market quickly and profitably. Our process begins with an assessment of your organization's needs and goals. We then create a custom plan to help you achieve quality releases faster. This approach enables you to deploy the Eggplant Test Automation solution and rapidly develop the necessary core competencies across your team simultaneously.

## Eggplant Test Automation Services Model

Time to Quality • Time to Market • Time to Profit
