

Infiniium UXR and M8040A BERT Hardware Bundle

Receive up to 20% off when bundling an Infiniium UXR-B Series Oscilloscope with a M8040A BERT

Are you looking to update your lab with the latest and greatest high-performance test and measurement instruments? Utilize the Infiniium UXR-B and M8040A BERT hardware bundle to significantly lower your lab cost!

The Infiniium UXR-B has world-class signal integrity and the highest bandwidth, highest ENOB, and lowest noise-floor of any oscilloscope on the market—giving you the ability to solve even the most difficult measurement challenges. Coupled with the M8040A high-performance BERT, this powerful duo equips you with all the tools you need to characterize chips, devices, transceiver modules and subcomponents, boards, and more with data rates up to 32 Gbaud and 64 Gbaud.

For a limited time, you can save up to 20% when purchasing any Infiniium UXR-B Series Oscilloscope and M8040A BERT!

Details

End Date: December 31, 2024

Bundle Price Adjustment Number:

M8040A-PA9

Availability: Worldwide

Bundle conditions

- The 20% price adjustment applies to UXR-B Series and M8040A hardware items only.
 - Bundle adjustment does not apply to software applications, probes, cables, fixtures, transit cases, or other accessories.
 - Infiniium UXR-B and M8040A BERT must be configured on a single quote, purchased together.
- Keysight Technologies reserves the right to modify or discontinue this offer during the bundle period.
- Bundle cannot be combined with promo 6.061.
