

Jump-Start Your Visibility Project with Keysight Professional Services

Kick-starting your project is critical to ensure that you achieve your deployment goals. Keysight's Ixia Professional Services can provide expert guidance to help launch your project quickly and effectively to ensure the optimization of configurations.

Customizable services include:

- Assistance in design, implementation, and configuration support for your initial deployment.
- Troubleshooting and hands-on help in optimizing filters and enabling appropriate features.
- Transfer of knowledge and training.

You buy professional services by the day — either remote or on-site. The Keysight sales team will work with you to determine the appropriate number of days required based on the simplicity or complexity of your deployment. Once your project is nearing launch, Keysight's Professional Services project management team will work with you to schedule resources. It's as simple as that.

The following are the Keysight professional service part numbers:

- one day — 972-4501
- three days — 972-4503
- five days — 972-4505

Use the following part number for:

- customer site visit, travel, and expenses — 972-4020

Add professional services and receive training for integration and configuration, including deployment expertise
