

# 3 Steps to Software Transformation Success

## Partner with Keysight for an Enterprise Agreement

When you commit to a multi-year, strategic customer relationship with Keysight, you'll have a flexible capacity pool of subscription software at your command.

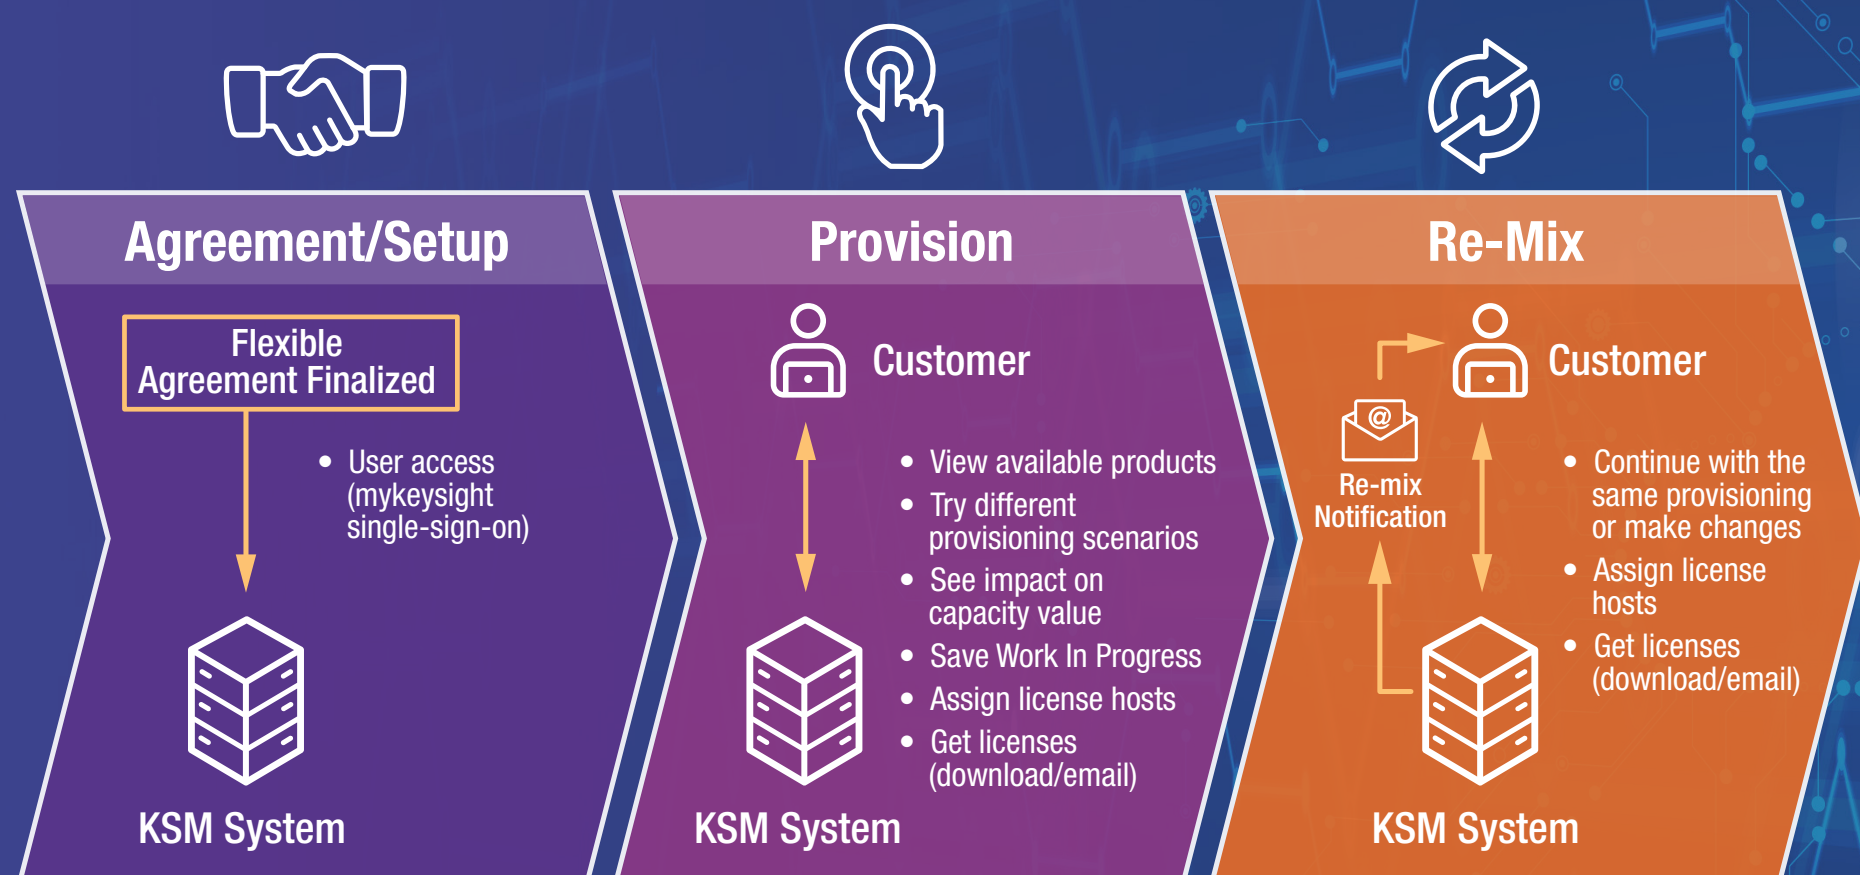

### Major Customer Benefits:

- Flexible access to our software product portfolio and new technology
- Improved license utilization
- Cost predictability
- Pricing protection
- Scalability

## Streamline Your Management Processes

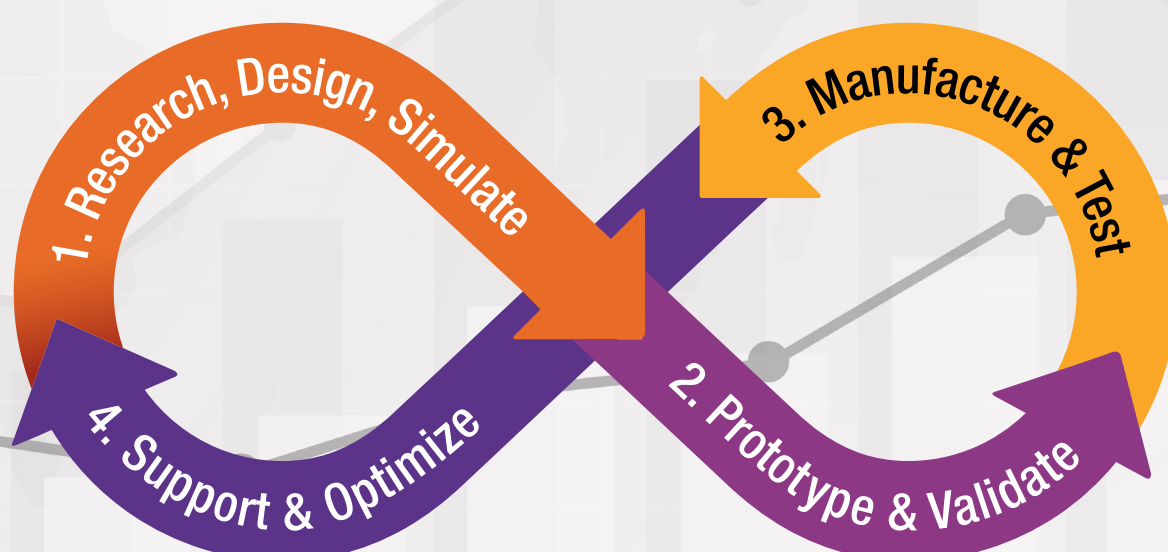

Work smarter. Keysight's Software Management (KSM) System empowers you to control the software licensing workflow and environment. KSM self-service licensing Portal is available 24/7 to automate setup, provisioning, and re-mixing of your capacity pool.

## Optimize for Operational Efficiency

Be more productive and improve time-to-market. Focus on reaching your critical business and technical outcomes instead of annual contract negotiations. Enterprise Agreements deliver continuous value for your projects and software operations.

### Full Product Development Lifecycle

## Increase Software ROI Today!

Keysight Enterprise Agreements transform your software investment into a competitive advantage.
