

# PathWave System Design (SystemVue)

## Platform OS Support Roadmap

### Platform support by product release

Keysight PathWave Design Software (formerly Keysight EEsof EDA) reviews operating system (OS) support plans on a regular basis and updates the information as it becomes available. PathWave Design Software generally follows the ESDA OS roadmap available at <https://www.semi.org/en/communities/esda/OSRoadmap>. Not all product releases are supported on all platforms and/or operating system combinations.
