

Extended Warranty After Calibration

A calibration with Keysight means that we measure the actual performance of every warranted specification, for every installed option, every time. We include preventative maintenance such as instrument cleaning and connector care. We are so confident after a calibration of your instrument's performance we offer a special discount on extended warranty.

- **Extended warranty coverage** – 12/24/36 months of global full-product repair coverage that begins after your instrument passes calibration
- **Discount** – Discounted pricing for multi-year extended warranty (up to 15%)
- **Cost savings** – Save up to 70% compared to one unexpected repair event
- **More uptime** – Initiate immediate service without waiting for out-of-cycle budget and purchase order approval that often takes four weeks of your administrative processes

Purchase an extended warranty after every calibration to reduce your cost of ownership
