

Revised: 28 January 2022

Keysight Technologies, Inc.

Counterfeit Electronic Components Prevention Policy

Our Commitment

Keysight Technologies, Inc. is committed to preventing the introduction of counterfeit electronic components into our products and has put forth rigorous measures to avoid the usage of counterfeit electronic components in manufacturing.

Our Process

1. **Procurement Control:** Use only authentic electronic components procured from the Original Component Manufacturer (OCM) or from the OCM's Authorized Supplier, the supplier's authorization with the manufacturer shall be verified.
2. **Supplier Requirements:** Inform our suppliers of this policy and hold suppliers accountable for compliance. Should business reasons (obsolescence, cost, lead time, customer commitments, etc.) dictate the procurement of electronic components from non-authorized sources, supplier would require a written consent from Keysight Technologies Inc. Any infringements to this requirement is deemed as a non-compliance.
 - i. Supplier shall notify in writing the Procurement representative at the impacted Keysight facility of a requirement to utilize a non-authorized source.
 - ii. The affected Keysight facility representative shall review the supplier request and should approval be provided, authenticity of the electronic components shall be verified in accordance with Keysight's established test plan.
 - iii. An approval from Keysight and test results affirming electronic components to be authentic mandatory prior to the use of the electronic components on our products.
3. **Detection:** Maintain appropriate processes to assure electronic component authenticity.
4. **Training:** Continually deploy training programs to maintain awareness on the risk of counterfeit for all Keysight employees involved.
5. **Disposition and Reporting of Suspected Counterfeit Components:** Investigate, analyze, and assess the exposure for all cases of suspected counterfeit components found across Keysight's supply chain. Keysight shall isolate, quarantine and remove such component from Keysight's supply chain, and make appropriate disclosures to the proper authorities.

6. **Compliance:** Audits are conducted on our adherence to the policy.
7. **Counterfeit Awareness:** Keep informed on current counterfeit information and trends, including detection and avoidance techniques contained in appropriate industry standards, and using such information and techniques for continuously upgrading internal processes.

This policy applies to all of Keysight's manufacturing, service and repair areas except in the support of equipment beyond its stated support life and non-Keysight manufactured equipment.
