

# Keysight Infiniium Software Updater Tool

## Version 1.3.3.2

Release Date: 17 April 2024

- Fixes TLS cipher issue that prevents Software Updater from downloading the LatestConfig.xml file to oscilloscopes that have the M910 motherboard.

## Version 1.3.3.1

Release Date: 7 March 2024

- Fixes a permission issue by changing the location where the LatestAppinfo.xml file is copied. It now copies the LatestAppinfo.xml file to C:\ProgramData\Keysight\Infiniium\Apps\SwUpdater\Download rather than C:\Program Files\Keysight\Infiniium\Apps\SwUpdater\Download.

## Version 1.3.3.0

Release Date: 24 June 2021

- Updated the compare of four-field version numbers (x.x.x.x) and three-field version numbers (xx.xx.xxxx) by assuming the missing fourth field is zero. For example, now, version numbers 02.10.0014 and 2.10.14.0 are considered equivalent.

## Version 1.3.2.0

Release Date: 22 June 2020

- Added download error messages with user guidance.
- Added help topic "If there are problems".

## Version 1.3.1.2

Release Date: 16 June 2020

- Fixed an issue with downloading files from the Internet.

## Version 1.2.1.2

Release Date: 25 February 2019

- Fixed an issue with downloading files for the internet.

## Version 1.2.1.1

Release Date: 18 September 2018

- Added support for the 10.XX baseline.

## Version 1.2.1.0

Release Date: 1 June 2018

- Changed the Installation path from C:\Program Files\Infiniium to C:\Program Files\Keysight\Infiniium\Apps\SwUpdater.

## Version 1.2.0.0

Release Date: 24 April 2018

- Self Update Utility
1. Additional entry of the SwUpdater in the apps list which shows the installed and latest version of SwUpdater. User can update the utility within utility if the status is 'Update Available'.
  2. Created a separate installer of SwUpdater using Installshield 2015 so as to delink this utility from the main Infiniium software.
- 'About' Button is added which let the user know the details of the Utility.
  - Defect Fix : Corrected support of Compatibility issues.
  - Defect Fix : Corrected the application version number displayed by the utility.

Version 1.1.0.0

Release Date: 23 March 2018

- Added version support to the Utility.
  - Added 'Install All' button
1. This button will allow user to Install all the downloaded applications sequentially.
  2. Checkboxes are provided so that user can select which apps to install with 'Install All' button. By default, all the apps are checked.
- Defect fix: To detect correct latest version number of the applications from XML.
