

Bundle Your Bundles

Extend measurement excellency from lab to field with a limited time offer on hardware + application-focused bundles

Save up to 35%

Why Bundle?

Bringing the full benefits of technology innovations from the lab to the field can be challenging. As a test and measurement vendor, Keysight strives to provide customers with the measurement solutions best fitting their needs in both development and deployment. Speed up your decision-making with a bundle that meets all your needs.

FieldFox handheld analyzer bundles

Born in the lab and raised in the field, the FieldFox handheld analyzer handles everything from design verification to field installation and maintenance. Keysight offers preconfigured FieldFox handheld analyzers (N99xxB) bundles focusing on Aerospace and Defense (A/D), wireless communications, and general purposes. All other options outside of the bundles, such as pulse generator, interference finding, noise figure, etc., can be upgraded solely with software licensing keys by users as needed.

FieldFox for Aerospace and Defense

- The world's most integrated handheld analyzer offering 25+ license-key activated applications
- Key specifications are maintained across the full temperature range (-10 to +55 °C)
- MIL-spec grade ruggedness to withstand the toughest working conditions
- Benchtop accuracy available in the lab or field

FieldFox for wireless communications

- User-friendly one-button touch enabling power and modulation analysis
- Wide real-time bandwidth analysis up to 120 MHz
- High-frequency coverage up to the 54 GHz required for 5G NR (new radio)
- Over-the-Air (OTA) analysis eliminates the need for connecting fixtures on the Device-Under-Test (DUT) when testing 5G NR signals

FieldFox for general purpose

- "One-box-fit-all" with vector network analysis, spectrum analysis, In-phase and Quadrature (IQ) analysis, real-time spectrum analysis, EMI measurements, and more
- All options outside of the bundle are software upgradeable
- Benchtop grade performance into a rugged design

PXA signal analyzer bundles & PSG signal generator bundles

Keysight also offers preconfigured hardware bundles on its high-performance signal analyzers (N9030B PXA) and signal generators (E8527D and E8627D PSG). Quickly find and measure dynamic signals with the PXA. Accelerate innovation in your 5G FR1 and FR2, WiFi 6 and WiFi 7, and radar applications. Gain metrology-grade performance in radar applications with the PSG. With these bundles, meet your most stringent requirements without sacrificing your budget.

Bundle Your Bundles (BYB) and complete your solution!

Take advantage of savings from PXA or PSG hardware bundles and FieldFox application-focused bundles for signal analysis, signal generation, and vector network analysis. These optimized bundles save you time and money and let you quickly configure your Keysight test equipment to its full potential. Bundle today; get the right solutions for a fraction of the price.

BYB Signal Analyzers

PXA (N9030B) + FieldFox (N99xxB) bundles

Eligible PXA bundle options

Model	Description
N9030B-050	5G FR1 Bundle Includes: Options 513/P13/B1X/LNP/MPB/N9085
N9030B-051	5G FR1 Bundle Includes: Options 526/P26/B1X/LNP/MPB/N9085
N9030B-052	5G FR2 Bundle Includes: Options 550/P50/B5X/LNP/FPB/EP0/N9085
N9030B-053	5G FR1 Bundle Includes: Options 526/P26/B5X/EP0/LNP/MPB/FPB/N9085
N9030B-061	WiFi 6 Bundle Includes: Options 526/P26/B1X/LNP/MPB/N9077
N9030B-062	WiFi 7 Bundle Includes: Options 526/P26/B5X/LNP/MPB/FPB/EP0/N9077
N9030B-080	Radar Bundle Includes: Options 526/P26/B5X/MPB/EP0/RT2/DUA/N9067
N9030B-081	Radar Bundle Includes: Options 526/P26/B5X/MPB/EP0/N9067
N9030B-083	Radar Bundle Includes: Options 526/P26/B5X/MPB/EP0/N9054

Eligible FieldFox bundle options

Model/Bundle option	Description
N9918B-ADB	26.5 GHz AD Bundle Includes: N9918B/Options 233/235/236/238/350/355/361/302/330
N9953B-ADB	54 GHz AD Bundle Includes: N9953B/Options 233/235/236/238/350/355/361/302/330
N9918B-CMB	26.5 GHz Comms Bundle Includes: N9918B/Options 233/235/307/350/352/358/378/B10
N9953B-CMB	54 GHz Comms Bundle Includes: N9953B/Options 233/235/307/350/352/358/378/B10
N9918B-GPB	26.5 GHz GP Bundle Includes: N9918B/Options 210/211/233/235/236/350/351/361/208/302
N9953B-GPB	54 GHz GP Bundle Includes: N9953B/Options 210/211/233/235/236/350/351/361/208/302
