

Firmware Update Instructions

Keysight AC6900 Three-Phase AC Power Source (USB Update)

Update Instrument Firmware

CAUTION Do not turn off the instrument during the update.

1. Download the firmware file and save the file to your computer. Note the directory where the file is saved.
2. Unzip the file and save the 'CHECKSUM' and 'update' files separately on a USB thumbdrive.
3. Mount the USB thumbdrive on the USB port on the front panel.
4. Go to Utilities > System Settings > About > Firmware Update to update the firmware.
5. Reboot the instrument upon firmware update.
