

E9288AZ Option K01

Product Note

E9288AZ Option K01 is a feed-through test adapter intended primarily for use in the calibration procedure of the E4416A and E4417A Peak Power Meters. The adapter is inserted in the Power Sensor cable, an additional E9288A cable is required to connect the adapter to the sensor head.

The adapter has a red and a black 2mm socket on one end, the red socket is connected to PK POS pin A and the black socket is connected to PK NEG pin K.

NOTE

Trim the socket if you do not require it. It will not affect the performance of the power sensor.
