What is Guided Success

ACHIEVING MORE, TOGETHER

Whether newly adopted or long-established, software represents a significant investment that can underdeliver without sustained expert guidance. Keysight Guided Success is a structured, expert-led solution designed to protect and maximize that investment by accelerating time to value and ensuring continued performance year after year.

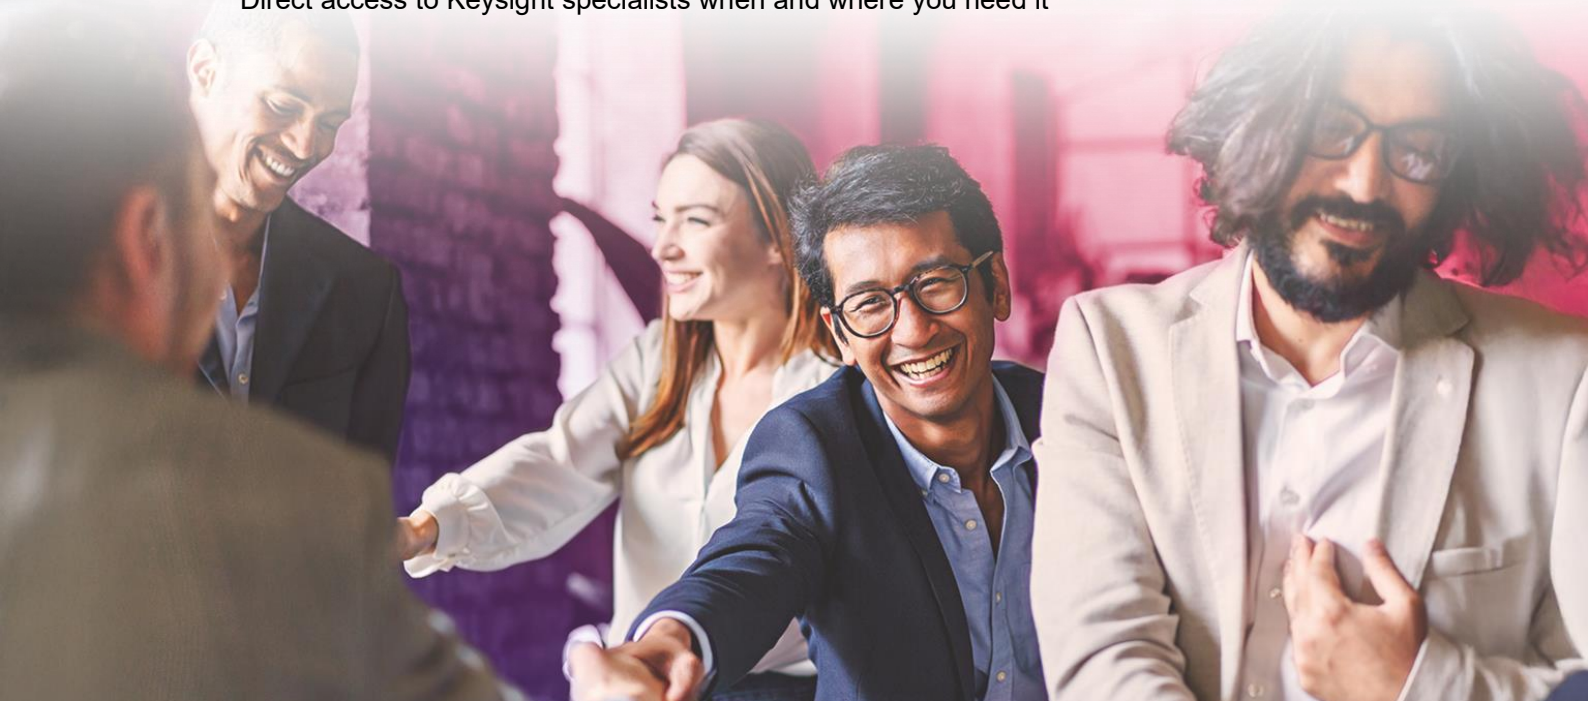

Through guided onboarding, best-practice implementation, and ongoing optimization, our software specialists help reduce inefficiencies, limit rework, and drive consistent return across the full software lifecycle, transforming software spend into sustained business value rather than a one-time expense.

ACCELERATE PROFICIENCY. EMPOWER YOUR TEAM. MAXIMIZE ROI.

- A comprehensive, guided, outcome-driven journey that helps accelerate software adoption and maximize value for your Keysight Software investment.
- Expert guidance, tailored training, and ongoing support, ensuring every user works efficiently, confidently, and productively toward your business objectives. From first login to measurable results and faster outcomes.

Our program includes:

- **Success Journeys Meetings**
Ongoing alignment sessions to define goals, track progress and address challenges
- **On Demand Learning**
Self-paced training modules to build foundational knowledge and user confidence
- **Remote Reviews**
Expert-led sessions to reinforce On Demand e-Learning and accelerate skill application
- **Professional Services and Support Hours**
Direct access to Keysight specialists when and where you need it

Addressing the Challenges

FOCUS ON DESIGN, NOT TOOLS

Boost Productivity

- ✓ Accelerate development cycles as design complexity increases while iterations decrease
- ✓ Deliver projects faster and meet deadlines more consistently across programs

Efficient Tool Usage

- ✓ Continuous expert guidance that builds confident, effective tool usage
- ✓ Streamline workflows that reduce manual effort and adapts as capabilities evolve

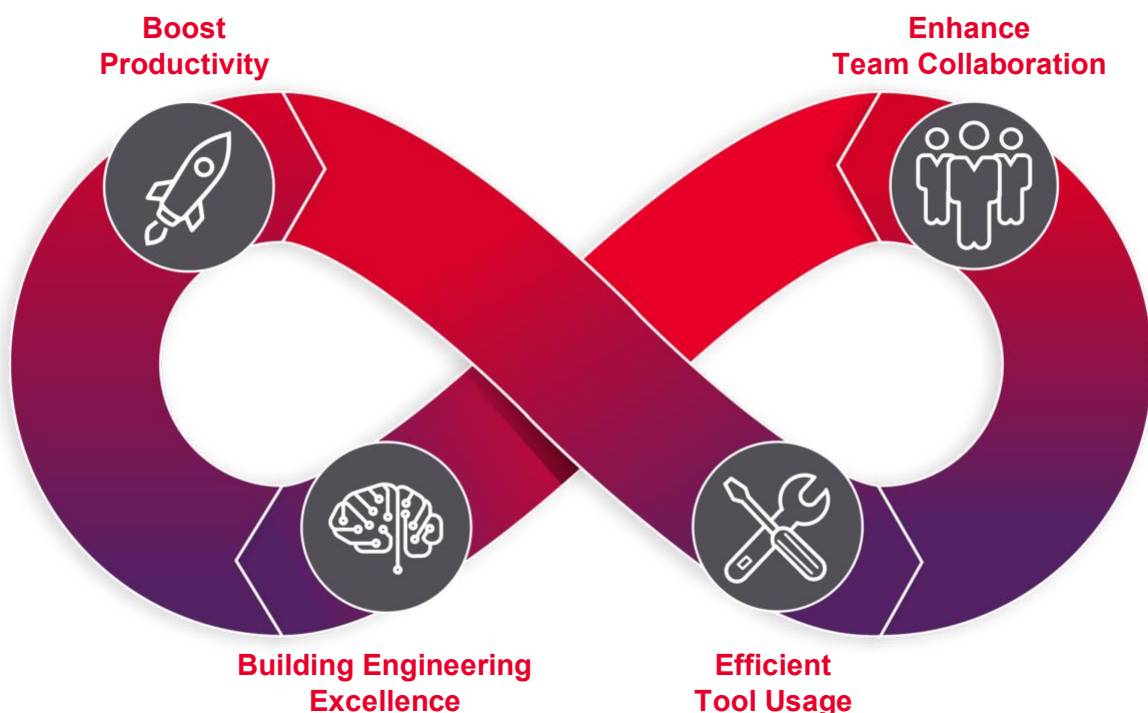

Enhance Team Collaboration

- ✓ Shared standards that improve collaboration across teams and programs
- ✓ Ongoing knowledge transfer that minimizes rework and retraining

Building Engineering Excellence

- ✓ Proven practices applied consistently to reduce risk throughout development
- ✓ Fewer errors, less rework, and improved lifecycle efficiency

“Guided Success is a continuous engagement designed to evolve with your teams and technology”

A Comprehensive Program for your Keysight Software Investment

From first use to long-term value, Guided Success supports your teams at every stage

Services & Support – Throughout the Software Lifecycle

Summary

Keysight Guided Success addresses the challenges of achieving consistent value realization from software by replacing trial-and-error learning with expert guidance, proven workflows, and continuous enablement throughout the lifecycle of your software investment. From first steps to lasting value, we are part of the journey alongside your teams.

As business priorities, team capabilities, and technology landscapes evolve, Guided Success adapts to ensure sustained value realization and continued alignment with organizational objectives.

Teams achieve productivity faster, reduce rework, and deliver measurable outcomes sooner, while maintaining momentum over time.

Through continuous engagement that combine expert-led onboarding, ongoing mentorship, and direct access to Keysight experts. Guided Success protects and maximizes your software investment year after year, well beyond initial deployment assuring your long-term success.

Keysight enables innovators to push the boundaries of engineering by quickly solving design, emulation, and test challenges to create the best product experiences. Start your innovation journey at www.keysight.com.
