U8903B firmware upgrade procedures

The U8903B firmware update file can be obtained from the Keysight U8903B firmware update Web site at www.keysight.com/find/audioanalyzer_firmware.

Perform the following procedure to update the U8903B firmware.

1 Save the firmware update files in an external USB flash storage.

2 Connect the external USB flash storage to the U8903B.

3 Press on the SYSTEM panel.

4 From the System menu page, press the **Update** softkey. The Update menu page is displayed as shown in **figure 1-6**.

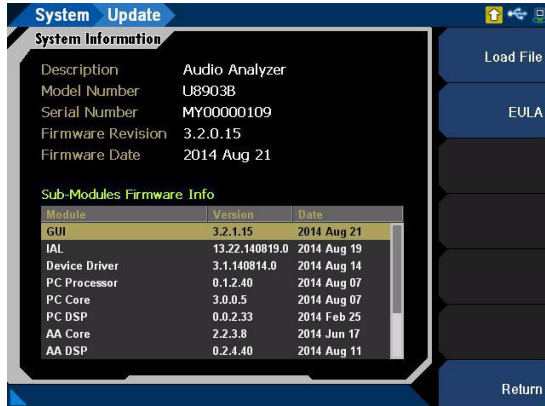

Figure 1-6 System > Update menu page

Menu	Description
Load File	Press the **Load File** softkey to load the update files. The Recall menu page will be displayed to select the source location. Refer to "**Recall**" on page 87 for more information on the Recall menu page.
EULA	Press the **EULA** softkey to display the U8903B EULA (End User License Agreement) page.

5 Press the **Load File** softkey and the recall menu page is displayed to enable you to select the source location.

6 Select the firmware file (xxx.bin) to be updated, and press the **Recall** softkey as shown in **Figure 1-7**.
