

# N443xD Electronic Calibration Module Quick Start Guide

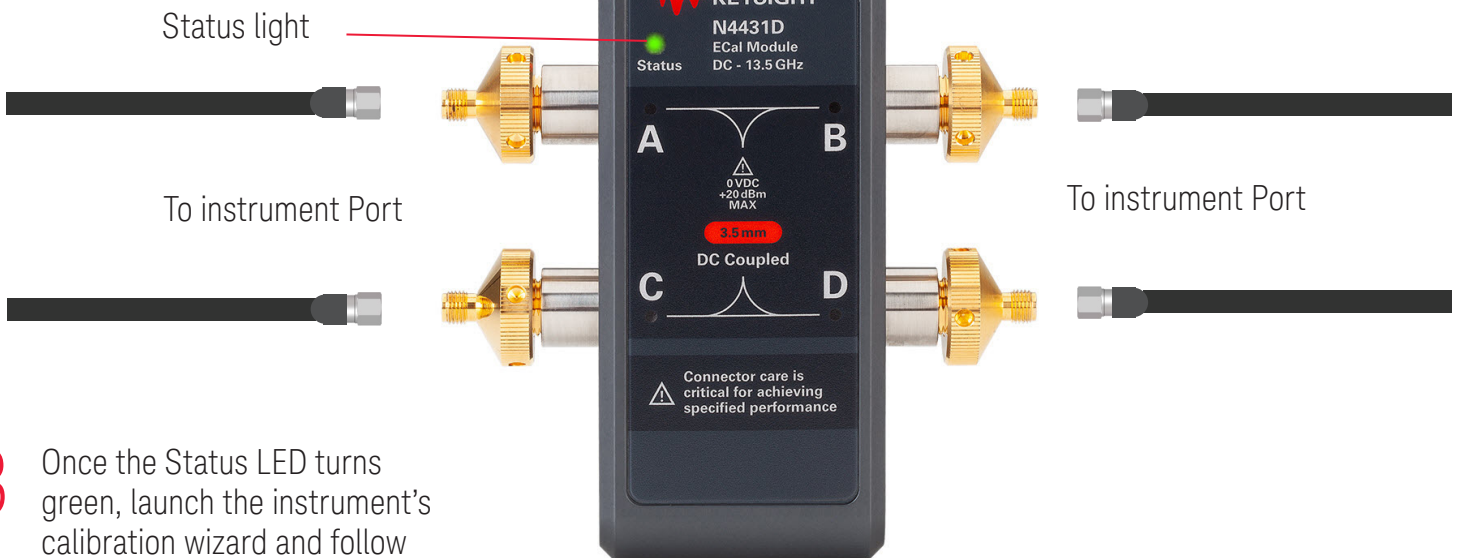

Congratulations, with this ECal module you will achieve fast, accurate results with confidence.

## CAUTION

Please use ESD precautions when handling and operating.

- 1 Prepare your required test port cables for the instrument to be calibrated.
- 2 Connect the included USB cable to the ECal module and the other end of the cable to a USB port on the analyzer.

To instrument USB

- 3 Once the Status LED turns green, launch the instrument's calibration wizard and follow the instructions.
