

How to Run CD Image

- The original CD image was created by the SCPI Consortium in 1998
- It has been extracted into a zip file for easier access from the internet
- Unzip the file "SCPI Audio Training.zip"
 - Unzipping will create a directory called "SCPI Learning"
 - Under "SCPI Learning" you will find a directory called "PROGRAM"
- Change to the "PROGRAM" directory
- Execute or double-click the file SCPI.EXE
 - Enter NO to install Quicktime, in most situations
 - If you have problems running the program, right click SCPI.EXE and configure it for Win98 Compatibility mode

- Select SCPI Lectures and then choose which topic to run

- Each slide sequences with no ability to manually pause mid-slide
- You can back up or move forward in the topic sequence
- Exercises are at the end of each section
