

# FlexDCA Online Help

This document provides useful  
Information for using the FlexDCA  
online help file on a PC

Online Help  
Installation  
Guide

## Contacting Keysight Sales and Service Offices

---

Assistance with test and measurements needs and information on finding a local Keysight office is available on the internet at, <http://www.Keysight.com/find/assist>. If you do not have access to the internet, please contact your field engineer.

Note: In any correspondence or telephone conversation, refer to the signal generator by its model number and full serial number. With this information, the Keysight representative can determine whether your unit is still within its warranty period.

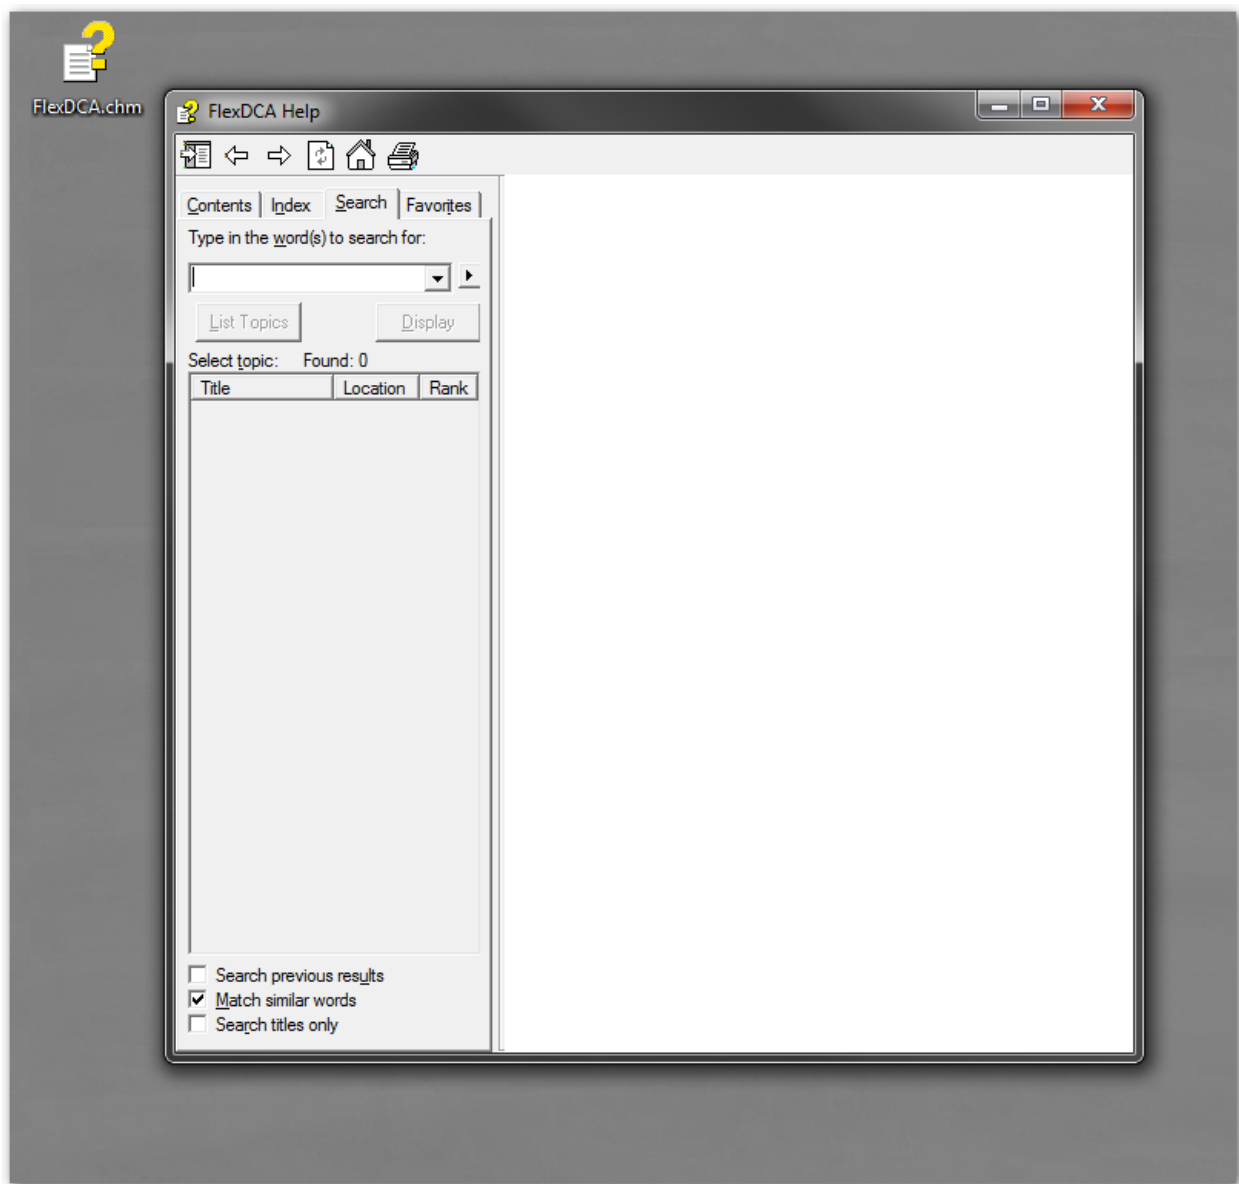

## FlexDCA Online Help Installation Instructions

---

N1010A and 86100D online help provide useful information relating to product specifications, programming and a number of topics related to the Keysight DCA product family.

For convenience we provide the file in a .chm format so it can be viewed on a separate PC or a tablet with a .chm file reader installed.

Note that security settings in Microsoft Windows may not allow file to open properly as seen in the screen shot below.

To enable the file to be displayed properly, right click on the FlexDCA.chm file, select “Properties” and click the ‘Unblock” button and then click “Apply”

The online help file will now open properly and allow you to view help topics on a separate PC.
