Keysight Technologies Statement on Responsible Cobalt Sourcing

Keysight has established policies, statements and guidance documentation that outlines Keysight's expectations to our suppliers regarding responsible sourcing including expectations for human rights and labor, which are the main concerns identified by the new voluntary Cobalt Initiative lead by the [Responsible Minerals Initiative](#) (RMI).

On request, Keysight can provide a completed Extended Minerals Reporting Template (EMRT), which reflects the information provided to Keysight by our supply chain.

Responsible Sourcing is a Foundation Pillar of Keysight's [Corporate Social Responsibility Program](#). We encourage you to visit our company website to learn more regarding Keysight's actions, initiatives and requirements that have been implemented to meet our responsible sourcing objectives.

If you have questions, please visit www.keysight.com/go/contactus for Keysight Key Contacts.
