Finding the HostID in the N1010A Keysight FlexDCA Software	3
Finding the HostID in legacy DCA products	6

Finding the HostID in the N1010A Keysight FlexDCA Software

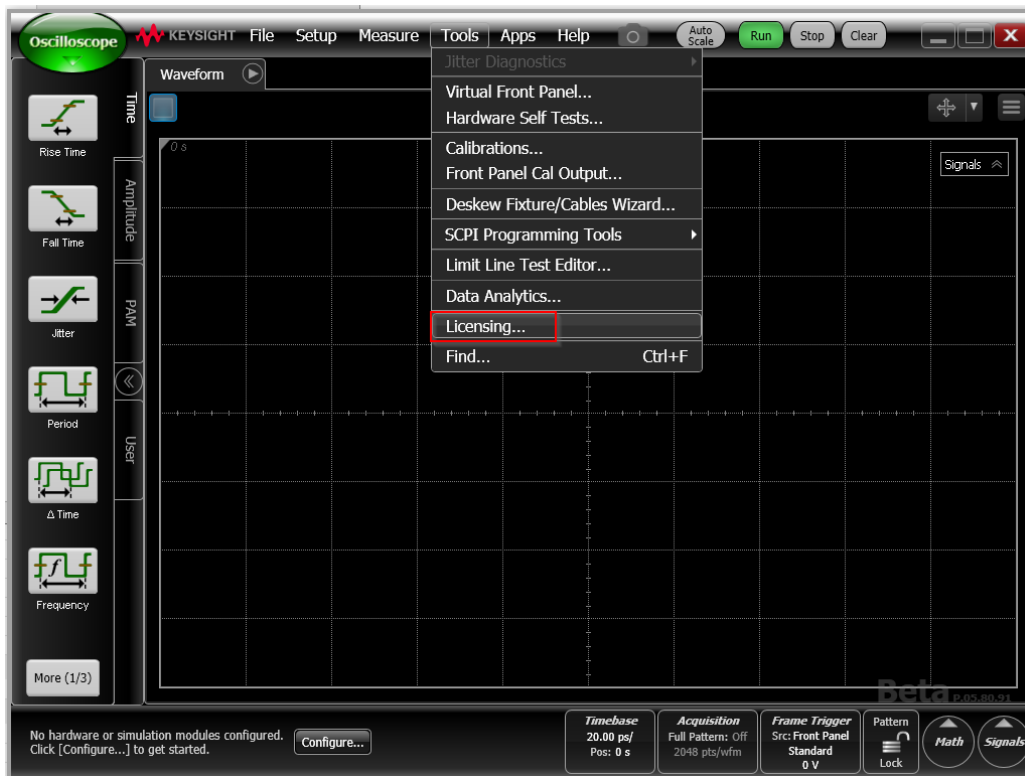

1. Open the N1010A Keysight FlexDCA user interface on your computer or DCA mainframe.

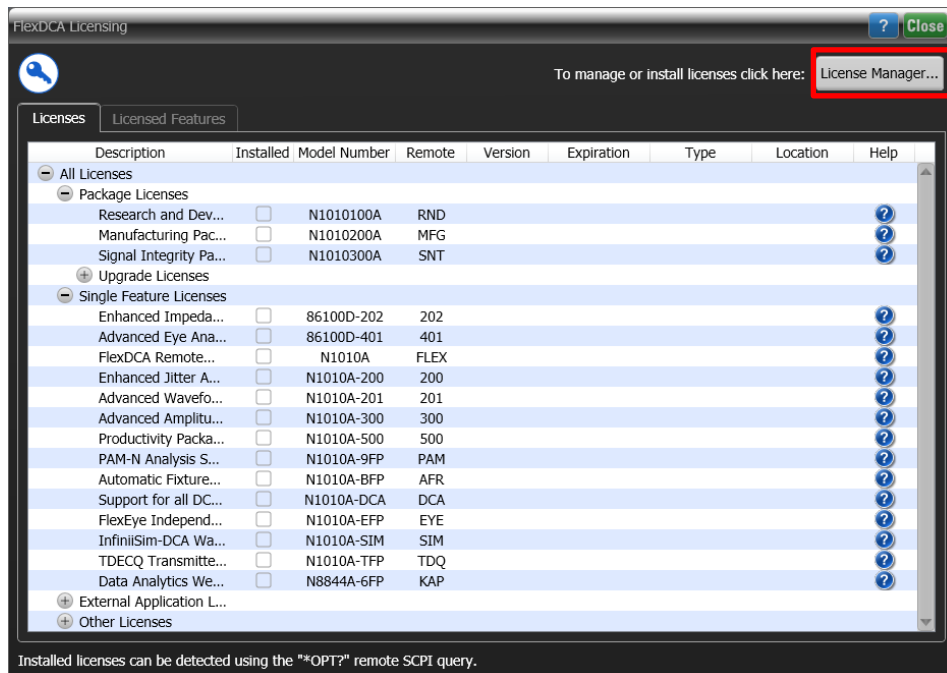

Alternatively, you can open the Keysight License Service directly from the Windows Taskbar. The icon shows up as a lock. If using this method, skip to step 4.

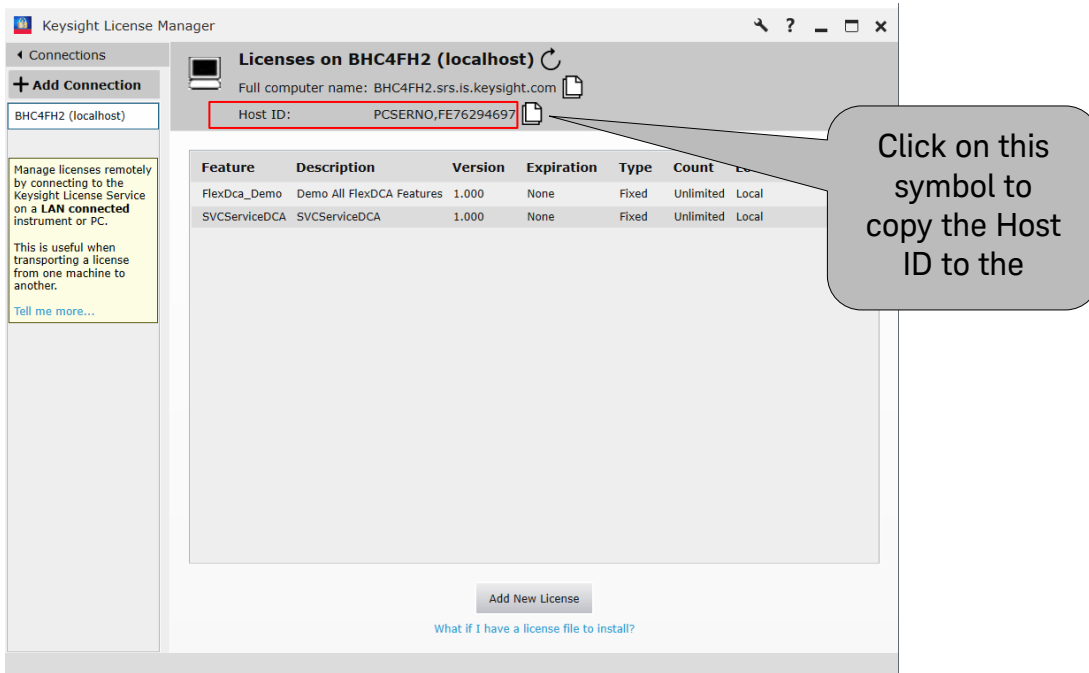

2. From the FlexDCA toolbar, click Tools > Licensing...

3. Press the License Manager button.

4. Copy the complete Host ID from the Keysight License Manager Window
Example: **PCSERNO,FE76294697**

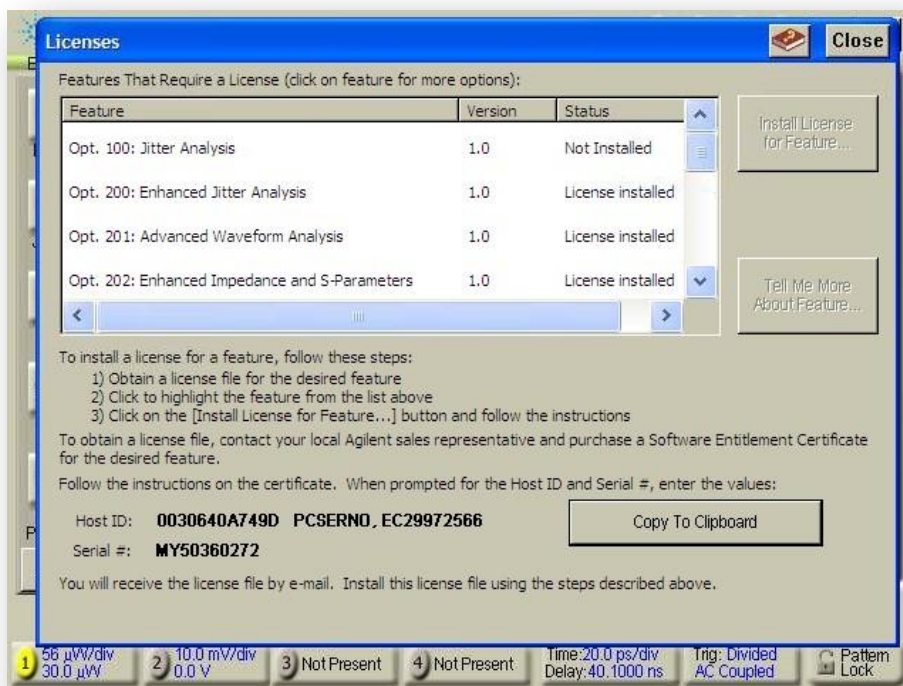

Finding the HostID in legacy DCA Products

86100D Mainframe with Windows XP Host ID Instructions
