

KeysightCare for Solutions

Access Expertise

Accelerate the Win

As technology becomes more complex, small test problems accumulate and your workflow can break down. This breakdown can put your plans in doubt. KeysightCare for Solutions is your priority-one connection between our resources and your teams. We help you remove barriers to success with committed, accessible, and proactive engagement. KeysightCare for Solutions delivers an industry-leading integrated support experience that combines hardware, software, and technical support services scaled to your unique business needs.

Stay current with ever-changing technologies by connecting with technical application experts whose experience can help you overcome industry-specific measurement challenges. Additionally, you can learn from the numerous application notes, webinars, white papers and more available in the 24/7 online Knowledge Center.

Lower the risk of project delays and reduce maintenance downtime with KeysightCare's accelerated, committed turnaround times for repair and calibration. Solutions support also helps you gain peace of mind amid evolving technologies with proactive software updates, enhancements, and fixes. On-site services such as repair, calibration, and technical support are available to ensure your system uptime and maximize test system utilization for the most complex applications, solutions, and systems.

For successful test system results, now and in the future, activate KeysightCare for Solutions to stay ahead of the curve and accelerate the win.

Integrated and proactive support scaled to meet your specific needs:

- Solutions optimized for hardware and software
- Technical support

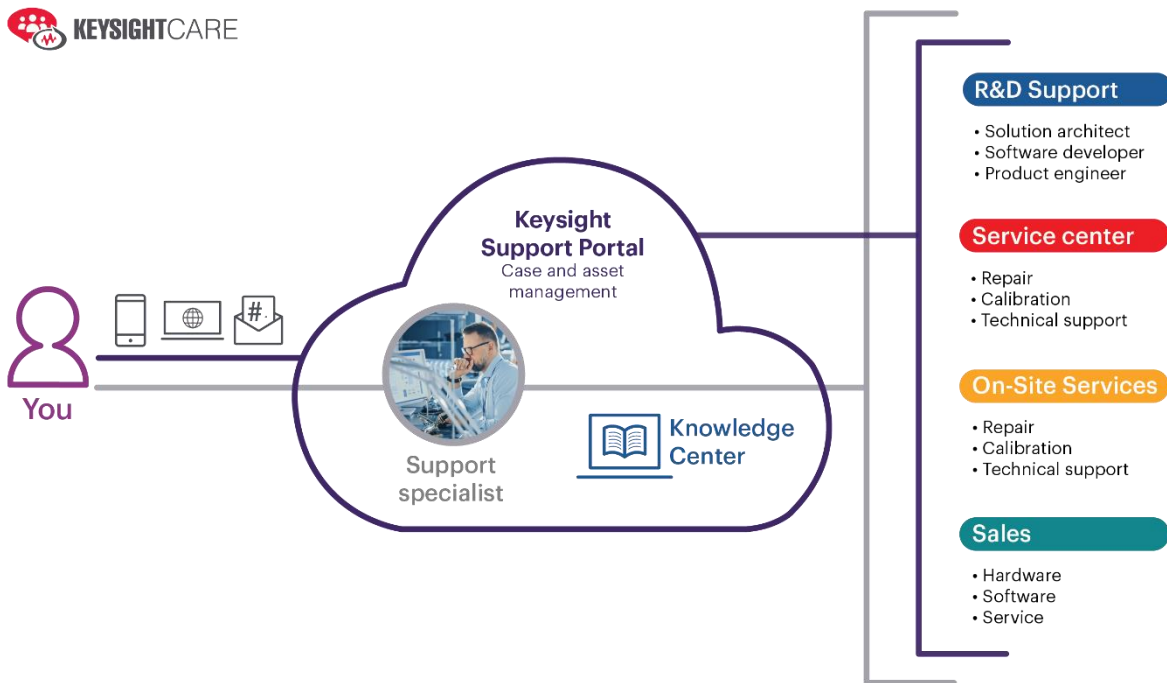

Improve time to market and reduce costly unplanned downtime and project delays:

- Access to application and solution experts, and 24/7 Knowledge Center
- Repair and calibration coverage for entire system
- Committed response and turnaround times
- Faster time to resolution
- Software updates and notifications

Access Expertise

Keep your projects on schedule with Keysight Solution Services. For solutions support requests, you can **call/email** or connect directly with the **Keysight Support Portal** to open a support case or search the Knowledge Center for answers to your instrument, software, applications, and technologies questions. For more support details, see the **KeysightCare for Solutions flyer**.

KeysightCare for Solutions provides fast access to a team of dedicated solutions support application engineers who will assist you with your challenging technical issues and questions.

Take advantage of our scalable and comprehensive support model, offering best-in-class test, and measurement expertise through a dedicated, proactive Keysight contact for instruments, software, application measurements, and test.

Accelerate the win with KeysightCare.
