

Keysight Technologies

11667L Power Splitter

DC-2 GHz, BNC, 50 ohm

Technical Overview

Key Features

- Excellent amplitude (0.2 dB) and phase tracking ($\pm 3^\circ$) ensures highly accurate power splitting
- Low SWR minimizes measurement uncertainty

The Keysight Technologies, Inc. 11667L is a 50 ohm two-resistor type power splitter with BNC connectors. The 11667L provides exceptional amplitude and phase tracking for highly accurate power splitting. Offering excellent output power symmetry between the two output ports, the 11667L is recommended for applications that require external source leveling and ratio measurements by using the E5061B network analyzer (at its gain-phase test port), and for other legacy network/gain-phase analyzers that do not have built-in power splitters or directional bridges.

Application examples Network Measurements

Milliohm impedance measurements with shunt-thru method (DC-DC converters, large bypass capacitors)

Shunt-thru impedance measurement

Transmission coefficient measurements for 2-port devices

50 ohm device measurement

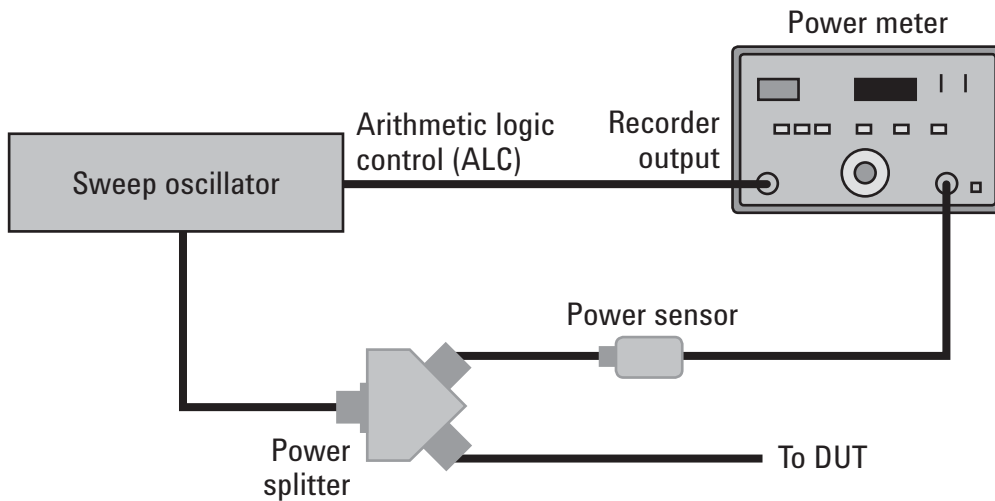

Non-50 ohm LF filter measurement

Rationing and leveling

Power splitter test setup for leveling with a crystal detector

Power splitter test setup for leveling with a power meter

NOTE:

The two-resistor type power splitters are not applicable to power dividing and combining applications. For these purposes, use the three-resistor type power dividers.

Specifications

Specifications describe the product's warranted performance. Supplemental and typical characteristics are intended to provide typical but non-warranted performance parameters. These are denoted as "typical", "nominal" or "approximate".

| Specifications | Keysight 11667L |
|---------------------------------|---------------------------|
| Frequency Range | DC to 2 GHz |
| Connector | BNC (f) |
| Insertion Loss above 6 dB (max) | DC to 100 MHz : 0.2 dB |
| | 100 MHz to 2 GHz : 0.6 dB |
| Isolation (Min) | DC to 2 GHz : 11 dB |
| Return Loss (SWR) Typical | Input : 18 dB (1.3) |
| | Output : 11 dB (1.78) |
| Amplitude Tracking (Max) | DC to 100 MHz : 0.1 dB |
| | 100 MHz to 2 GHz : 0.2 dB |
| Phase Tracking (Max) | DC to 100 MHz : 1 deg |
| | 100 MHz to 2 GHz : 3 deg |
| Maximum Input Power | 500 mW |

Environmental Test Specifications

The 11667L is designed to fully comply with Keysight Technologies product operating environment specifications. The following summarizes the environments for these products.

| | |
|----------------------------|-----------------------------|
| Temperature | |
| Operating | 0 – 55 °C |
| Non-operating | -40 °C to 70 °C |
| Humidity | |
| Non-operating | -10 °C to 25 °C / 50% RH |
| Operating | 40 °C / 95% RH, 5-day cycle |
| Functional Shock | Half-sine, 30 g, 11 ms |
| Vibration | |
| Operating random vibration | 5 to 500 Hz, 0.21g RMS |
| Altitude | |
| Storage/Operating | ≤ 4600 meters (15,000 feet) |
| ESD immunity | |
| Direct discharge | 6kV |
| Air discharge | 15kV |
