

Keysight Technologies

Total Cost of Ownership

Keysight is the clear leader in providing the highest total value—compare and see for yourself

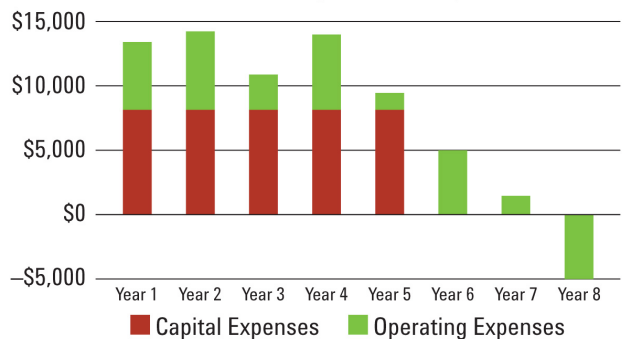

Total Cost of Ownership is the total annual amount you spend to own and operate your product. Classes of costs include acquisition, calibration, repair, downtime mitigation, technology refresh, resale/disposal, and other operating expenses such as energy and floor space.

We encourage you to analyze and compare the Total Cost of Ownership of Keysight Technologies, Inc. products against products from other suppliers.

When you consider the total value that comes with your Keysight product, you will find that Keysight is the clear leader in providing the highest total value.

Total Cost of Ownership — Cost per Year

- Learn about what drives your Total Cost of Ownership.
- Identify the primary cost factors for the instruments you own, rent, or are considering for purchase.
- Compare Keysight's products against other suppliers.
- View results per annum or per test in graphical format.
