Reliable Power, Repeatable Results

- Linear power supply
- Dual or triple output
- 10-turn voltage and current control
- Low noise and excellent regulation

Affordable, Full-Featured Benchtop Power Supplies Provide Excellent Performance and Flexibility

Multiple-output non-programmable models

The Keysight Technologies, Inc. E3620A and E3630A low-cost benchtop power supplies give you the performance of system power supplies at a decent price. Both supplies provide clean power with excellent regulation and a fast transient response.

With multiple supplies in a compact unit, the E3620A and E3630A provide excellent performance while saving space on your bench. Both instruments feature a tight 0.01 percent line and load regulation and a low normal mode noise specification of less than 0.35 mV to ensure clean power for precision circuitry. With a common mode current specification of less than 1 μA, both multiple-output power supplies minimize the power line current injection.

The E3620A and E3630A feature separate digital panel meters so you can monitor the voltage and current simultaneously. They also protect your DUT against overload and short-circuit damage.

Smooth turn-on and turn-off transitions keep power spikes out of your circuits. Auto-tracking permits equal or proportional voltage sharing, and allows control of output voltage from one master unit. The master and slave supplies have the same output polarity with respect to a common bus or ground. This operation is useful where simultaneous turn-up, turn-down or proportional control of all power supplies is required.

E3620A dual-output power supply

The 50-watt E3620A dual-output power supply provides two 0 V to 25 Vdc outputs with the maximum current of 1 A to satisfy most bench requirements. The outputs are completely independent and isolated.

E3630A triple-output power supply with auto-tracking feature

The 35-watt E3630A triple-output power supply provides three DC outputs: 0 to 6 V with a maximum current of 1 to 2.5 A and 0 to 20 V and 0 to %20 V with a maximum current of 0.5 A. An auto-tracking feature lets you use one voltage control to adjust the +20 V and %20 V outputs simultaneously. The outputs track each other to within 1 percent, making it easy to adjust the power supply for circuits requiring balanced voltages.

Ordering information
E3620A Dual-output power supply
E3630A Triple-output power supply

Standard shipped accessories
Product reference CD, power cord

Power options
Opt. 0E3 230 Vac ± 10%
Opt. 0EM 115 Vac ± 10%
Opt. 0E9 100 Vac ± 10%

Other options
Opt. 1CM or 34190A rackmount kit* (Only applicable for E3620A)
Opt. UK6 Commercial calibration certificate with test result data E3600A-100 Test lead kit

Manual sets
Please visit www.keysight.com/find/manuals for the latest revisions of manuals.

Rackmount kits*
E3620A
To rackmount two instruments side-by-side
– Lock-link Kit (P/N 5061-9694)
– Flange Kit (P/N 5063-9212) or 34191A

To rackmount one or two instruments in a sliding support shelf
– Support Shelf (P/N 5063-9255)
– Slide Kit (P/N 1494-0015) required for support shelf

For a single instrument, also order filler panel (P/N 5002-3999)

* Rackmounting with 1CM or lock-link/flange kit requires
– Keysight or customer support rails
– Keysight Support Rails-E3663AC.
Evolving Since 1939

Our unique combination of hardware, software, services, and people can help you reach your next breakthrough. We are unlocking the future of technology.

From Hewlett-Packard to Agilent to Keysight.

myKeysight

Register your products to get up-to-date product information and find warranty information.

Keysight Services

www.keysight.com/find/service

Keysight Services can help from acquisition to renewal across your instrument's lifecycle. Our comprehensive service offerings—one-stop calibration, repair, asset management, technology refresh, consulting, training and more—helps you improve product quality and lower costs.

Keysight Assurance Plans

www.keysight.com/find/AssurancePlans

Up to ten years of protection and no budgetary surprises to ensure your instruments are operating to specification, so you can rely on accurate measurements.

Keysight Channel Partners

www.keysight.com/find/channelpartners

Get the best of both worlds: Keysight's measurement expertise and product breadth, combined with channel partner convenience.
