IXIA VISIBILITY SOLUTIONS CASE STUDY

Educational Institution

Introduction

This case study of an educational institution is based on an August 2016 survey of Ixia visibility solutions customers by TechValidate, a 3rd-party research service. The profiled organization asked to have their name blinded to protect their confidentiality.

> "We use Ixia for multiplexing the traffic from multiple locations and sending it to our sniffers (inspection devices)."
>
> "Ixia wins in visibility."

Challenges

The business challenges that led the profiled organization to evaluate and ultimately select Ixia visibility solutions:

- Operational challenges Ixia helps solve:
    - The fight against invisible threats
    - Lack of network diagnostics
    - Packet loss

Use Case

The key features and functionalities of Ixia visibility solutions that the surveyed organization uses:

- Using Ixia solutions for:
    - Forensics and packet capture
    - Proactive monitoring
- Currently using the following visibility product or feature:
    - Network Taps

Results

The surveyed organization achieved the following results with Ixia visibility solutions:

- Top benefits experienced after implementing Ixia:
    - Reduced overall workload
    - Improved network and application reliability and performance
- Realized a return on investment using Ixia within six months
- Reduced the traffic load on their monitoring or security tools by almost 60% with Ixia's visibility solutions

Organization Profile

The organization featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
