2022 CSR Report – Executive Summary

Environmental Sustainability
Social Impact
Ethical Governance
Keysight’s Corporate Social Responsibility (CSR) vision is to build a better planet by accelerating innovation to connect and secure the world through a global business framework of ethical, environmentally sustainable, and socially responsible operations. We are proud of our impact on society through technology acceleration and furthering our CSR initiatives.

Keysight’s sustainably developed solutions help our customers meet their own CSR objectives and deliver breakthrough innovations in areas such as clean technology, social impact and wellness, and safety and security. For example, new capabilities of our comprehensive open radio access network (ORAN) portfolio are being used to verify conformance, interoperability, and performance for energy saving applications, as well as security. In addition, orders of our automotive and energy solutions — which include support of clean tech innovations in renewable energy and the e-mobility ecosystem — exceeded $500 million in fiscal year 2022.

Operationally, we continued to make progress toward our goal of net zero emissions in company operations by end of fiscal year 2040, exemplifying Keysight’s strategic intent to help mitigate the worst impacts of climate change. We installed Keysight’s largest solar power system at our campus in Penang, Malaysia. We also completed an estimated 3500 MWh of annual energy reduction projects globally. With a commitment to the Science Based Targets initiative, we submitted our science-based targets in early 2023 for validation. Once validated, we look forward to utilizing an approved framework to track and report progress in this important space.

On the social impact front, and in our engineering spirit of continuous improvement, we implemented process improvements in our human rights and labor management approach, supply chain CSR commitments, and diversity, equity and inclusion (DEI) program. While our human rights and labor work has always spanned operations and supply chain, we took efforts a step further in 2022 by expanding internal reporting to improve transparency in our efforts and address stakeholder inputs.

In addition, DEI remained a strategic company priority. In 2022 we exceeded our underrepresented minority hiring goal — approximately half of new hires in the U.S. were underrepresented minorities. We’ve set aggressive goals for hiring women and continue to make progress — in 2022 about a third of our new hires globally were women. We will use the progress from the past year to improve results and engagements across these spaces through 2023 and beyond.

Keysight is acutely tuned into global developments in the CSR and environmental, social, and governance (ESG) disclosure space. With a history of voluntary ESG disclosure aligned with the most prevalent reporting frameworks, Keysight has closely tracked and is well prepared to meet mandatory reporting requirements worldwide as they roll out in the coming years.

Our entire organization remains steadfast in our commitment to help build a better planet. Moving forward, we are excited to build on our momentum on all fronts of CSR. We enter 2023 with confidence in our ability to continue to execute against our strategy and deliver results for stakeholders. Our mission to accelerate innovation to connect and secure the world has never been more relevant.

Satish Dhanasekaran
President and Chief Executive Officer
State of the Business

Keysight accelerates innovation by addressing customers’ most complex design and test challenges through software-centric solutions. Our customers span the worldwide communications and industrial ecosystems, automotive, energy, aerospace and defense, semiconductor, and general electronics markets. Keysight helps customers improve design and development processes, optimize and secure networks, and use technologies like AI and digital twins to advance technologies such as 6G, Internet of Things (IoT), and quantum computing. Our fusion of technology knowledge, measurement science expertise, and tailored differentiated solutions helps customers forge ahead with confidence in our connected and dynamic world.

Our strategy continues to be one of growth and enabling customer success through industry-focused and software-centric solutions, targeted research and development investments, strategic acquisitions, and the operational discipline of our Keysight Leadership Model (KLM).

Corporate Social Responsibility (CSR) is a core element of our KLM. As such, we employ the principles of a circular economy in our product lifecycle and implement sustainable practices throughout our operations. At the same time, our products, solutions, and services enable innovations that help connect and secure the world in key purposeful technology markets such as clean technology, social impact and wellness, and safety and security.

Keysight’s CSR progress continues to receive external recognitions that validate our efforts and impact. In fiscal year 2022, the company continued to be listed in the MSCI ESG Leaders Indexes, FTSE4Good Index Series, and as a North American index component of the Dow Jones Sustainability Index (DJSI). We continued to receive the highest ISS QualityScore for Social throughout the year and received the highest ISS QualityScore for Environment in August 2022. In addition, JUST Capital recognized Keysight in its Top 100 U.S. Companies Supporting Healthy Families and Communities, and we were named an industry leader for the fourth consecutive year in its 2022 rankings of America’s Most JUST Companies.

As we look ahead, Keysight remains well-aligned with the fastest growing technology and sustainability-linked end markets and will continue to enable breakthroughs in purposeful technology innovation. From a governance perspective, we understand the need to maintain transparency in our ESG progress. In this report we provide details of our impact by disclosing to key voluntary reporting frameworks and are prepared to address related mandatory disclosures as they roll out worldwide in the coming years. As always, Keysight will continue to focus on creating value for our customers, shareholders, and employees while moving forward with a continuous improvement approach to our CSR efforts worldwide.

---

1. The inclusion of Keysight Technologies, Inc. in any MSCI index, and the use of MSCI logos, trademarks, service marks or index names herein, do not constitute a sponsorship, endorsement or promotion of Keysight Technologies, Inc. by MSCI or any of its affiliates. The MSCI indexes are the exclusive property of MSCI. MSCI and the MSCI index names and logos are trademarks or service marks of MSCI or its affiliates.

2. FTSE Russell (the trading name of FTSE International Limited and Frank Russell Company) confirms that Keysight Technologies has been independently assessed according to the FTSE4Good criteria, and has satisfied the requirements to become a constituent of the FTSE4Good Index Series. Created by the global index provider FTSE Russell, the FTSE4Good Index Series is designed to measure the performance of companies demonstrating strong Environmental, Social and Governance (ESG) practices. The FTSE4Good indices are used by a wide variety of market participants to create and assess responsible investment funds and other products.
Keysight’s CSR Vision is to build a better planet by:

- Accelerating innovation to connect and secure the world
- Employing a global business framework of ethical, environmentally sustainable, and socially responsible operations

Through our hardware, software, and service solutions

Through a comprehensive corporate social responsibility program
Accelerating Innovation to Connect & Secure the World

Keysight helps build a better planet through our sustainably developed electronic measurement solutions that accelerate innovations to change lives, secure the world and connect people across the globe.

Keysight’s product lifecycle employs circular economy principles to support sustainability while helping customers protect their innovation investment through maintenance, repair, refurbishing, and recycling. When utilized by customers, our leading-edge design, test, manufacture, and optimization solutions help drive innovations that build a better planet in areas such as clean technology, social impact and wellness, and safety and security.

Clean Tech Innovation

Disruptive innovations in automotive electro-mobility, renewable energy, and the Internet of Things (IoT) that enable smart-cities, -homes, and -agriculture, are key to bringing breakthroughs in environmental sustainability. These technologies reduce global reliance on carbon-heavy fuels, enable better natural resource management, and support quality monitoring of soil, water, and air as infrastructures become more connected. These applications, however, stretch electric grids to capacity, drive the need for battery optimization, and require the development, evaluation, and optimization of state-of-the-art networks and technologies.

Keysight empowers the clean tech revolution by providing solutions for automotive, energy, networking, communications, and IoT companies to design, test, manufacture and monitor next-generation environmentally sustainable product and service offerings.

Social Impact & Wellness

Technology provides a gateway to community prosperity. Smart-cities enable optimized community services, smart-agriculture helps minimize hunger, wearables and healthcare instruments promote well-being, mission-critical communications ensure first-responders stay connected in crises’, and technologies such as artificial intelligence (AI), virtual reality (VR), and automation enable a diverse workforce to flourish. Quality, interoperability, and high performance are critical in delivering prosperity through technology, while educating next-generation technologists is crucial to ensuring future skillsets can meet tomorrow’s challenges.

Keysight supports social impact and wellness by providing solutions that test and validate designs, simulate and measure real-world conditions, and monitor infrastructure deployments. The company also provides equipment, software, and resources to prepare tomorrow’s engineers for the next technological revolutions.

Safety & Security

Faster, more reliable communications, connected devices, and AI technologies support emerging innovations across multiple applications, including crisis management, community security, healthcare, next-generation aeronautics, autonomous vehicles, and smart devices. Such applications connect and secure global communities by providing the technology needed to quickly and efficiently address privacy rights and safety threats. The ubiquitous use of networked data, devices, and AI technologies for these purposes, however, also open the door to vulnerabilities that can result in new, unintended safety issues and privacy implications.

Keysight solutions test performance, validate security, and monitor deployments of such technologies in real-time. This enables our customers to find and fix vulnerabilities before they impact operations, thereby supporting end user safety, security and privacy as applications are scaled to connect and secure the planet.
Global CSR Business Framework

To achieve our vision, Keysight’s business and CSR efforts are synergistic — creating long-term value for business stakeholders while striving to positively impact the global community through our solutions, services, and CSR program. We utilize a robust, multi-pronged CSR Business framework that is managed both across and up-and-down our corporate hierarchy. We also utilize external expertise — including third party expert engagements, peer and best-in-class benchmarking, as well as monitoring of industry and societal developments — to inform our actions and support continuous improvement. Following are the key aspects of our CSR business framework.

Support efforts that help the planet and company thrive
by mapping efforts to business commitments and measuring progress through a set of key impact goals across environmental, social and governance (ESG) topics

Engage company values and Keysight stakeholders
to align efforts across and deep within the company while meeting stakeholder expectations

Utilize a governance structure with defined scope and management system
to drive continuous improvement and accountability

Based on a foundational framework of CSR pillars
that provide an enterprise-wide structure to which all CSR efforts are aligned and measured for company and global community benefit
Helping the Planet Thrive

Keysight’s key impact measures provide a framework to track the company’s progress and commitment to supporting environmental sustainability, strengthening global communities, and employing ethical business governance and operational practices worldwide.

In fiscal year 2021, we announced our commitment to net zero emissions in operations by 2040, including interim mid-term goals, and have made progress toward that goal as detailed in the environmental results section of this report.

In the social impact and ethical governance spaces, Keysight’s goals for fiscal year 2022 remained focused on short-term, one-year measures in support of continuous progress toward helping build a better planet.

Results in our fiscal year 2022:

$284M+
In Value Committed to Strengthening Communities

49.1%
U.S. New Hires were Underrepresented Minorities (URM)$^3$

798K+
Students, Future Engineers, and Technology Skill Learners Engaged through STEM Education

32.6%
Global New Hires were Women

ZERO
Material Negative Impacts to the Income Statement from CSR-related Topics

PROGRESS MADE
Toward Net Zero Emissions in Company Operations by End Fiscal Year 2040

3. Keysight uses the following definition of underrepresented minorities (URM): employees in the U.S. who identify as Black, African American, Hispanic, Latino, Asian, Pacific Islander, Native Hawaiian, Native American, Alaska native, or two or more races, or as lesbian, gay, bisexual, or transgender.
Environmental Sustainability
Fiscal Year 2022 Results

Keysight recognizes that climate change is an economic, environmental, and social crisis. The private sector needs to take a comprehensive approach to reduce greenhouse gas (GHG) emissions, adapt to and help mitigate the worst impacts of climate change. In 2022, we made progress towards our commitment to net zero emissions in company operations by the end of fiscal year 2040, increased our global renewable electricity portfolio, and prepared to submit science-based targets (SBTs) across all scopes of emissions for validation to the Science Based Targets initiative (SBTi).

Utilizing the SBTi framework to develop, track, and report on these corporate ambitions will enable Keysight to measure progress in GHG emissions reduction and ensure targets are consistent with the latest climate change scenarios. In alignment with the SBTi framework, we completed a thorough screening and recalculation of our Scope 3 emissions for fiscal years 2021 and 2022. Under our new calculation methodologies, we are now reporting on twelve Scope 3 categories relevant to Keysight, and we completed an independent verification of our relevant Scope 3 categories for fiscal years 2021 and 2022, in addition to Scope 1 and Scope 2 location- and market-based emissions.

As progress towards our net zero and interim goals, in 2022 Keysight installed a 5.8-megawatt peak rooftop solar array at the company’s largest site, located in Penang, Malaysia. The project is estimated to provide approximately 7900 MWh annually of local generated renewable electricity to the site and, having been active for 6 months of the fiscal year, increased the company’s fiscal year 2022 renewable electricity portfolio to approximately 2.5%.

In addition, as part of our efforts in energy conservation and reduction, we initiated a global employee education and communications plan as well as implemented infrastructure projects. Infrastructure projects included heating, ventilation, and air conditioning (HVAC) efficiency improvements, lighting system upgrades, and window solar film installation. Together, the projects resulted in an estimated 3500 MWh of annual energy savings.

Social Impact Fiscal Year 2022 Results

Community

With a focus on strengthening local and global communities, Keysight ended fiscal year 2022 having surpassed its annual community goal by contributing more than $284 million in value through philanthropic giving, volunteerism, sponsorships, and university engagement programs.

In 2022, our community-based efforts maintained support for employee-selected charitable donation matching through our Giving Program in addition to targeted endeavors such as hurricane response support, university technology donations, and health and human services support.

Education

With the intent to inspire and nurture future engineers and technology skilled workers, our education goal collectively included all students that Keysight and employee volunteers engaged in support of science, technology, engineering, and math (STEM) education across primary, secondary, post-secondary and university-levels.

Social Impact Fiscal Year 2022 Results

Through new partnerships we were able to significantly increase STEM education reach and equity in fiscal year 2022, surpassing our annual goal by engaging more than 798,000 students, up from 145,000 in fiscal year 2021.

Efforts in 2022 included expansion of partnerships focused on equity in access to learning opportunities for girls and underrepresented minorities. We advanced initiatives to bring more STEM education into classrooms around the world by initiating partnerships with four new educational programs that focus on diversifying the pathways into STEM careers, especially for girls and historically underrepresented minority communities. Many of our partnerships also support teacher skills development to broaden the impact of our work.

Diversity, Equity, & Inclusion

Spanning the career journey, Keysight’s Diversity, Equity, and Inclusion (DEI) program endeavors to create a more inclusive and diverse workplace. We are committed to being transparent about our progress as we work on our DEI program, implement new initiatives, and engage employees in these efforts. We believe that being open with our data creates accountability. This is why we regularly evaluate our definitions and refine them when needed to report on progress and opportunities more accurately. In fiscal year 2022 mid-year, we revised the definition for new hires to exclude interns and temporary workers. This tightening of the definition resulted in a shift in the numbers previously reported. The data provided reflects the new definitions.

We set aggressive goals for 2022 of 47.4% of U.S. new hires being from URM groups and 35.4% global new hires being women. We are pleased to report that Keysight exceeded the URM goal with a result of 49.1% representation of U.S. new hires in 2022. Keysight fell short of our goal with 32.6% women representation of global new hires. While we made continuous progress in female hiring, with about 150 more women being hired in fiscal year 2022 from the previous year and maintaining alignment in our gender mix against other electronic design and test companies, we recognize that the goal was more aggressive than originally anticipated. We know more needs to be done and will continue to work aggressively to achieve realistic interim targets that move us toward our longer term DEI goals.

As a continued CEO-level priority with quantifiable goals and actions tracked by the leadership team and Keysight Board of Directors, the company looks forward to continuous improvement and progress in our DEI results.

After-School All-Stars partnership program in Tampa, Florida, supported by Keysight
Ethical Governance Fiscal Year 2022 Results

This target has supported alignment to ethical operations and business commitments through robust governance provided by the company's Standards of Business Conduct (SBC), corporate policies, Board and risk oversight, and environmental, health, and safety programs, for example. As a result, Keysight did not incur any material negative impacts to the income statement from CSR-related topics in fiscal year 2022, and thus met this goal as planned.
Forward Looking Key Impact Goals

As Keysight continues to make progress on mid- and long-term targets in support of our goal of net zero emissions in company operations by the end of fiscal year 2040, we are excited to present our latest targeted measures in social impact and ethical governance for fiscal year 2023.

Goals for Our Fiscal Year 2023:

$250M
In Value Committed to Strengthening Communities

~1.5M
Students, Future Engineers, and Technology Skill Learners Engaged through STEM Education across Fiscal Years 2022 and 2023, with 660K in Fiscal Year 2023 alone

33.6%
Global New Hires are Women

50.1%
U.S. New Hires are Underrepresented Minorities

ZERO
Material Negative Impacts to the Income Statement from CSR-related Topics
Forward Looking Key Impact Goals

Helping the Company Thrive

Our CSR program areas are mapped to the company’s business commitments. This program enables Keysight to continue delivering solutions and services that support a more connected and secure world, as well as create long-term value for business stakeholders. To this end, our CSR program supports the company’s objectives.

Revenue Growth Targets

Consistent CSR programs and global policies, as well as a diversity in workforce perspectives, enable faster acquisition integration and new market entry, employee and future workforce development, and innovative product research approaches.

Profitability

Using natural resources efficiently and taking advantage of a diversity in operational perspectives helps the company implement efforts that help reduce operating expenses and support cost avoidance programs.

Shareholder Value

Mitigating risk and targeting no material negative impact to the income statement from CSR-related topics is supported through operational excellence and maintaining — or improving — ESG investment ratings.

Keysight facility in Barcelona, Spain
Engaging Company Values & Stakeholders

Keysight Leadership Model (KLM)

To deliver on key impact goals and business commitments, CSR efforts are directly linked to corporate values and stakeholder requirements — which aligns the program with the company’s culture and drives support across, and deep within, the organization with every employee having a part to play.

As such, social responsibility is a critical component of our KLM pictured here — the company’s enabler to continuously deliver greater value to key stakeholders. KLM continues to be the philosophy that permeates every aspect of our operations to drive innovation, speed, and excellence in execution. The CSR program heavily utilizes the principles of KLM in program efforts and stakeholder engagements.
Key Stakeholders

Customers

Keysight customers are at the center of everything we do. Customers — and through sourcing flow-down, our suppliers — are leaders in technology. They are the visionaries and innovators who have achieved breakthroughs that connect and secure the world. As such, Keysight’s CSR program strives to help them meet their own CSR and business goals through partnership with the company and use of Keysight solutions.

Shareholders

CSR supports value creation to attract and reward shareholders through operational transparency, business resilience, and lowering costs with sustainable operational practices, all while building Keysight’s reputation as a solid, socially responsible brand.

Employees

Keysight attracts, develops, and retains an inclusive and diverse, high-performing workforce with shared values through a positive work environment that helps employees, and communities, thrive.

Communities

Keysight’s worldwide community programs tangibly demonstrate our values and commitment to societal prosperity. Corporate engagement efforts are focused across education, environmental sustainability, and health and human services.
Material CSR Aspects

Our CSR strategy is driven by aspects identified as important, or material, by key stakeholders. Utilizing our KLM, we regularly engage stakeholders to identify and understand trends and changes in environmental and social risks, key stakeholder expectations, as well as strategic opportunities for the business. Keysight completed a formal CSR materiality analysis most recently in fiscal year 2020. As part of this most recent materiality refresh, we contracted a third-party specialist to analyze CSR aspects important to our key stakeholders through:

- Peer analyses of similar companies to understand where Keysight stands globally in its CSR efforts

- Internal functional and executive stakeholder interviews across global business functions, including investor relations, order fulfillment, sales, corporate services, human resources, legal and compliance, information technology, workplace solutions, and product innovation and quality

- External stakeholder interviews representing customers, shareholders, industry associations, and non-governmental organizations (NGOs) to identify common themes in priorities and potential performance improvement trends in corporate citizenship

A cross-functional Keysight team reviewed and finalized the list of material CSR aspects which are detailed on the following pages.

Between formal CSR materiality assessments, Keysight utilizes its CSR Governance structure for ongoing guidance and regularly engages stakeholders as defined in our KLM. This enables the company to maintain alignment between our CSR efforts and stakeholder expectations short- and mid-term. Such ongoing stakeholder engagement is accomplished through consultation, surveys, ad hoc feedback, reviews, and internal and external audits.

CSR Framework

Governance Team

Keysight’s CSR program is managed by a multi-tier cross-functional governance team responsible for making progress towards the company’s corporate citizenship vision and meeting stakeholder expectations by identifying program elements and driving accountabilities company wide.

At the top level, Keysight’s Board of Directors oversees the company’s ESG strategy to ensure alignment with our long-term value creation approach. Specific committee charters outline oversight responsibilities, including those listed below.

Audit & Finance Committee

- Reviews and monitors compliance with applicable laws and regulations and with Keysight’s Standards of Business Conduct
- Evaluates environmental risks and monitors the financial impact on the company
- Reviews and evaluates risks and opportunities related to information security

Compensation & Human Capital Committee

- Oversees company culture including diversity, equity and inclusion initiatives
- Establishes and measures achievement of ESG metrics in executive compensation programs
- Monitors pay equity, sets compensation philosophy and oversees executive compensation programs

Nominating & Corporate Governance Committee

- Periodically evaluates the skills and qualifications of current directors
- Assists the Board in establishing a pool of director candidates and evaluates their qualifications
- Periodically reviews corporate governance practices and makes recommendations for changes to the Board
Throughout the company hierarchy, the CSR governance team includes representation across key functions, including solutions teams, field sales, marketing, finance and investor relations, corporate counsel, human resources and administration, order fulfillment, and information technology.

Scope and Management System

CSR Deliverables Scope

- **Program Management** – Materials such as documentation, tools, and program reporting support strategic alignment to business commitments and tracking of KPIs
- **Targeted External Reporting** – Reporting is focused in ESG disclosures that meet the expectations of shareholders, investment rating organizations, customers, and other stakeholder data requirements
- **Annual Initiatives** – Specific efforts identified and implemented each year to make progress toward key impact goals and performance indicators, close identified gaps, and address emerging trends
- **Communications and Outreach** – Focused on increasing visibility of the company’s CSR efforts and actions, both within and outside the company, in support of stakeholder expectations and brand reputation

CSR Management System

Keysight’s CSR Governance Team follows a standard management system process to effectively govern the program elements and set accountability, as noted in the diagram to the right.

Plan
Based on input from ongoing stakeholder engagements, trends, and gap analyses, annual planning sets target initiatives and KPIs, secures required resourcing, and facilitates alignment between company functions

Do
CSR deliverables are implemented according to annual plan and regularly monitored

Check
Quarterly program reporting assesses progress toward targeted goals and KPIs, and reviews new input from ongoing stakeholder engagements for plan reprioritization as necessary

Act
Gaps identified in reporting, or changes in requirements, are assigned to appropriate Governance Team members for action or integrated as input for the next annual planning review
Foundational Framework of CSR Pillars

The foundation of Keysight’s CSR program is structured across six pillars. These foundational pillars – each with supporting policies, programs, action plans, and accountability – provide a structure to which CSR efforts are aligned and measured for the company to create long-term value for business stakeholders, as well as for community benefit.

**Ethical Governance** – Keysight is committed to conducting business in an ethically responsible manner, with strategic and operational policies, procedures, and values that support transparency, sustainability, and legal compliance; this commitment underpins all our foundational pillars

**The Environment** – Keysight prioritizes natural resource conservation, emission reduction, waste minimization and pollution prevention, and partners with our suppliers and contractors to better achieve these goals; our ISO 14001:2015-certified Environmental Management System drives continuous reduction of any adverse environmental impact from our operations

**Responsible Sourcing** – Keysight has strong partnerships with strategic suppliers to enable mutual success and support a shared commitment to leadership in sustainable practices, technology, and business operations

**Our People** – Keysight values a diverse, inclusive, and respectful work environment where all employees are provided challenging assignments, development opportunities, competitive salaries, and a safe environment

**Communities** – Keysight contributes to the communities where the company operates, participating in local and global volunteer efforts, and supporting numerous charitable and educational organizations

**Our Solutions** – Keysight helps build a better planet through our sustainably developed electronic measurement solutions that accelerate innovations to change lives, secure the world, and connect people across the globe
