

Keysight AC6900 Three-Phase AC Power Source

1.18 Version Information

Release Date:	21 st May 2026
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900STD_V1.18

Resolved Issue

- Bug Fixed for LAN connection

1.17 Version Information

Release Date:	29 May 2025
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.17

Resolved Issue

- Update bit 6 in Questionable Status Group for INH status

1.16 Version Information

Release Date:	4 March 2025
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.16

Resolved Issue

- Fixed Inhibit issue when using Sequence

1.15 Version Information

Release Date:	7 Jan 2025
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.15

New Features

- Enable firmware update via firmware update tool
- FPGA enhancements

1.14 Version Information

Release Date:	15 May 2024
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.14

Resolved Issues

- Fixed unresponsive button issue

1.13 Version Information

Release Date:	3 May 2024
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.13

Resolved Issues

- Fixed LAN issue

1.12 Version Information

Release Date:	30 March 2023
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.12

Resolved Issues

- Fixed 'Process Error 9002' failure during firmware update.
- Fixed SCPI command 'IMPerdance' to 'IMPedance'.

1.09 Version Information

Release Date:	3 March 2022
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.09

New Features

- Firmware upgrade or downgrade through front panel
- Firmware upgrade or downgrade through remote communication

1.08 Version Information

Release Date:	30 September 2021
Operating System:	None
System Requirements:	None
Supported Instruments:	AC6903, AC6906, AC6912, AC6918
Release Type:	Major Update Release
File Name:	AC6900_V1.08

Resolved Issues

- Incorrect SCPI error message on SAV and RCL
- Incorrect front panel VISA address string
- Incorrect WebUI USB address format
- Unworkable WebUI LAN reset feature
- Incorrect virtual Front Panel Stop SIM function in Power Line Abnormality Simulation Setup
- Incorrect WebUI LAN Advanced Option button
- Error message in WebUI LAN gateway address

1.06 Version Information

Initial Release
