

Agilent N6468A SFP+ Compliance Application Release Notes

Agilent N6468A Software Version 01.01.0000

Released Date: 15 May 2014

Minimum Infiniium Oscilloscope Baseline Version: 4.20 (90000A, 90000X and 90000Q series)

File Name: SetupInfSFP01010000.exe

- TWDPc test using user-built Matlab script
- Added support for simultaneous testing using 2 differential channels, 4 single-ended channels and a maximum of 6 devices when using switch matrix (SFP)
- Fixed issue where in switch matrix mode, app does not tell you to change the pattern
- Fixed issue where PRBS9 pattern checking would hang up the app if incorrect pattern used
- Added 2 new CPRI rates (9.8304G, 10.1376G)
- Note: This will be the last version to support Infiniium Oscilloscope Baseline Version 4.20.
